XII. CONCLUSION ..... 57

1 We, **JONATHAN GARDNER** and **GREGG S. LEVIN**, declare as  
2 follows pursuant to 28 U.S.C. § 1746:

3 1. Jonathan Gardner is a partner in the law firm Labaton Sucharow LLP  
4 (“Labaton Sucharow”). Gregg S. Levin is a member of the law firm Motley Rice  
5 LLC (“Motley Rice”). Labaton Sucharow and Motley Rice are the Court-  
6 appointed lead counsel (“Co-Lead Counsel”)<sup>1</sup> for the Court-appointed Lead  
7 Plaintiffs Arkansas Teacher Retirement System, Union Asset Management  
8 Holding AG, Labourers’ Pension Fund of Central and Eastern Canada, LIUNA  
9 National (Industrial) Pension Fund, and LIUNA Staff & Affiliates Pension Fund  
10 (collectively “Lead Plaintiffs” or “Institutional Investor Group”), in this securities  
11 class action (the “Action”). We submit this declaration in support of: (a) final  
12 approval of the Settlement reached between and among Lead Plaintiffs and  
13 defendants Hewlett-Packard Company (“HP” or the “Company”), Léo Apotheker  
14 (“Apotheker”), and R. Todd Bradley (“Bradley”) (collectively with HP,  
15 “Defendants”); (b) approval of Lead Plaintiffs’ proposed plan for the allocation of  
16 the Net Settlement Fund (“Plan of Allocation”); (c) approval of Plaintiffs’  
17 Counsel’s application for an award of attorneys’ fees and payment of litigation  
18 expenses (the “Fee and Expense Application”); and (d) Lead Plaintiffs’ request for  
19 expenses, including lost wages, pursuant to the Private Securities Litigation  
20 Reform Act of 1995 (the “PSLRA”). Unless otherwise indicated, we have  
21 personal knowledge of the matters set forth herein based on our participation in  
22 the prosecution and settlement of the claims asserted on behalf of the Settlement  
23 Class, as defined below.

24 <sup>1</sup> Capitalized terms not otherwise defined herein have the meanings given to  
25 them in the Stipulation and Agreement of Settlement, dated March 31, 2014 and  
26 filed with the Court on March 31, 2014 (the “Settlement Agreement”). ECF  
27 No. 146-1.

1           2.     The Settlement will resolve all claims asserted in the Action, as well  
2 as all Released Claims,<sup>2</sup> against all Defendants and Released Defendant Parties on  
3 behalf of the Settlement Class, which consists of any and each person or entity  
4 that purchased or otherwise acquired shares of HP’s publicly traded common  
5 stock in the open market during the period from November 22, 2010 to and  
6 through August 18, 2011 (the “Class Period”) and was damaged thereby (the  
7 “Settlement Class”).<sup>3</sup>

8           3.     The Court preliminarily approved the Settlement and preliminarily  
9 certified the Settlement Class by its Order entered May 2, 2014. ECF No. 153.  
10 The Preliminary Approval Order is attached hereto as Ex. 1.<sup>4</sup>

---

11           <sup>2</sup>     The definition of Released Claims has been carefully tailored to ensure that  
12 the Settlement Class is only releasing claims against the Released Defendant  
13 Parties related both to the alleged wrongdoing and a purchase of HP common  
14 stock, while giving the Released Defendant Parties closure and a full resolution.  
15 For instance, Settlement Class Members would be precluded from suing HP’s  
16 auditor (a Released Defendant Party) for claims related to the alleged wrongdoing  
17 in the Action, but a Settlement Class Member who asserts a claim against their  
18 broker (not a Released Defendant Party) for an unauthorized trade (not the alleged  
19 wrongdoing) would not be barred.

20           <sup>3</sup>     Excluded from the Settlement Class are: Defendants; members of the  
21 Immediate Families of the Individual Defendants; all of HP’s subsidiaries and  
22 affiliates; any person who is or was an officer or director of HP or any of HP’s  
23 subsidiaries or affiliates during the Class Period; any entity in which any  
24 Defendant has a controlling interest; and the legal representatives, heirs,  
25 successors, and assigns of any such excluded person or entity. Also excluded  
26 from the Settlement Class are those persons and entities who submit valid and  
27 timely requests for exclusion from the Settlement Class in accordance with the  
28 requirements set forth in the Notice.

<sup>4</sup>     Citations to “Ex. \_\_” herein refer to exhibits to this Declaration. For clarity,  
exhibits that themselves have attached exhibits will be referenced as “Ex. \_\_-\_\_.”  
The first numerical reference refers to the designation of the entire exhibit  
attached hereto and the second reference refers to the exhibit designation within  
the exhibit itself.

1 **I. PRELIMINARY STATEMENT: THE SIGNIFICANT RECOVERY ACHIEVED**

2 4. After more than two years of vigorously contested litigation, Lead  
3 Plaintiffs have succeeded in obtaining a recovery for the Settlement Class in the  
4 amount of \$57 million, in cash, which has been deposited in an interest-bearing  
5 escrow account for the benefit of the Settlement Class. As set forth in the  
6 Settlement Agreement, in exchange for this payment, the proposed Settlement  
7 resolves all claims asserted by Lead Plaintiffs and the Settlement Class in the  
8 Action and all Released Claims against the Released Defendant Parties.

9 5. The proposed Settlement was negotiated at arm's-length and reached  
10 only after extensive mediation conducted under the auspices of United States  
11 District Court Judge (ret.) Layn R. Phillips ("Judge Phillips"), as mediator. Judge  
12 Phillips is highly respected by jurists and lawyers and is recognized as one of the  
13 premier mediators of complex, multi-party, high-stake cases, both in the United  
14 States and abroad.

15 6. Before agreeing to the Settlement, Plaintiffs' Counsel conducted an  
16 extensive investigation into the events underlying the claims alleged in the Action  
17 and also conducted extensive discovery. In connection with its pre-filing  
18 investigations, Plaintiffs' Counsel analyzed the evidence adduced from, *inter alia*:  
19 (i) reviewing and analyzing publicly available information and data concerning  
20 HP; (ii) interviewing almost 60 former HP employees and other persons with  
21 relevant knowledge after locating almost 200 potential witnesses and contacting  
22 more than 150 of them; and (iii) consulting with experts in the technology, web-  
23 based data and communications industries, as well as forensic econometric experts  
24 in damages evaluation and related causation issues in shareholder securities  
25 actions.

26 7. As part of the mediation process, Plaintiffs' Counsel also conducted  
27 months of intense, focused and extensive discovery, which involved obtaining,  
28 reviewing and analyzing more than 314,000 pages of core documents produced by

1 Defendants. Plaintiffs' Counsel also fashioned, propounded and secured written  
2 discovery from Defendants via interrogatories. Plaintiffs' Counsel researched the  
3 applicable law with respect to the claims asserted by Lead Plaintiffs against  
4 Defendants and their anticipated defenses. At the time the Settlement was  
5 reached, Plaintiffs' Counsel had a thorough understanding of the strengths and  
6 weaknesses of the parties' positions.

7 8. The Settlement Amount of \$57 million is well-above the \$9.1 million  
8 median settlement amount of reported securities cases in 2013, and greater than  
9 the median reported settlement amounts since the passage of the PSLRA, which  
10 have ranged from \$3.7 million in 1996 to \$9.1 million in 2013 (with a peak of  
11 \$12.3 million in 2012). *See* Dr. Renzo Comolli & Svetlana Starykh, *Recent*  
12 *Trends in Securities Class Action Litigation: 2013 Full-Year Review* (NERA Jan.  
13 21, 2014) (the "NERA Report") (attached hereto as Ex. 2).

14 9. According to analyses prepared by Lead Plaintiffs' consulting  
15 damages expert, the most likely aggregate damages the proposed class could have  
16 obtained at trial are estimated to be between \$217 million (for a class period that  
17 starts on June 1, 2011) and \$493 million (for a class period that starts on  
18 November 22, 2010), assuming that liability and loss causation for the alleged  
19 corrective disclosure were proven and based on various assumptions and  
20 modeling, including certain deductions for confounding information released on  
21 the corrective disclosure date. Defendants strenuously maintained, and continue  
22 to maintain, that no damages could be proven at trial. As such, the \$57 million  
23 Settlement represents a gross recovery of approximately 12% to 26% of Lead  
24 Plaintiffs' consulting expert's most likely estimated damages. This percentage is  
25 well within the range of reasonableness approved by courts. *See, e.g., In re*  
26 *Omnivision Techs., Inc.*, 559 F. Supp. 2d 1036, 1042 (N.D. Cal. 2007)  
27 (\$13.75 million settlement yielding 6% of potential damages after deducting fees  
28

1 and costs was “higher than the median percentage of investor losses recovered in  
2 recent shareholder class action settlements”); *In re Merrill Lynch & Co., Inc.*  
3 *Research Reports Sec. Litig.*, No. 02 MDL 1484 (JFK), 2007 WL 313474, at \*10  
4 (S.D.N.Y. Feb. 1, 2007) (finding that a recovery representing 6.25% of damages  
5 was “at the higher end of the range of reasonableness of recovery in class actions  
6 securities litigations”).

7 10. As discussed below, Lead Plaintiffs obtained this substantial recovery  
8 for the Settlement Class despite the significant risks they faced in prosecuting the  
9 Action. The Settlement Amount paid by Defendants, when viewed in the context  
10 of these risks and uncertainties, make the Settlement a very favorable result for the  
11 Settlement Class.

12 11. The Settlement has the full support of each of the Lead Plaintiffs.

13 **II. FACTUAL SUMMARY OF LEAD PLAINTIFFS’ CLAIMS**

14 12. Lead Plaintiffs’ claims in the Action are stated in the Second  
15 Amended Class Action Complaint for Violations of the Federal Securities Laws  
16 filed on October 19, 2012 (the “Complaint”). ECF No. 89. The Complaint  
17 alleges that Defendants violated Sections 10(b) and 20(a) of the Securities  
18 Exchange Act of 1934 (the “Exchange Act”), 15 U.S.C. §§ 78j(b) and 78t(a), and  
19 Rule 10b-5 promulgated thereunder, 17 C.F.R. § 78aa, by making alleged material  
20 misstatements and omissions relating to HP’s development of a fully-fledged  
21 ecosystem of hundreds of millions of “seamlessly” connected webOS-enabled  
22 PCs and printers from a webOS ecosystem (consisting of TouchPad and two  
23 smartphones), all within the short time frame of less than two years. ECF No. 89.

24 13. The Complaint alleges that Defendants made materially false and  
25 misleading statements regarding the Company’s mobile operating system, webOS,  
26 and HP’s ability to develop and extend webOS across an “ecosystem” of tablets,  
27 smartphones, personal computers (“PCs”), and printers. The Complaint alleges  
28

1 that these misrepresentations rendered Defendants' public statements and the  
2 Company's periodic reports filed with the Securities and Exchange Commission  
3 ("SEC") materially false and misleading.

4 14. As a result of Defendants' alleged misrepresentations, Lead Plaintiffs  
5 allege that purchasers paid artificially inflated prices for HP's publicly traded  
6 common stock and were damaged thereby. Disclosure by the Company, on  
7 August 18, 2011, that the Company had decided to discontinue the further  
8 development of webOS devices and the webOS ecosystem, allegedly led to HP's  
9 stock price falling from \$30.46 immediately prior to the late trading day  
10 announcement to \$23.60 per share on August 19, 2011.

11 15. Defendants have denied and continue to deny: (i) all the claims  
12 alleged by Lead Plaintiffs on behalf of the class, including all claims asserted in  
13 any pleading, including the Complaint; (ii) all allegations of wrongdoing, fault,  
14 liability, or damages to Lead Plaintiffs and the class; and (iii) that they have  
15 committed any act or omission giving rise to any liability or violation of law,  
16 including the federal securities laws. Defendants contend that at all times they  
17 acted properly, in good faith, and consistent with their legal duties and  
18 obligations. *See* ECF No. 146-1 at 4-5.

### 19 **III. RELEVANT PROCEDURAL HISTORY**

20 16. The Action was commenced on September 13, 2011 by the filing of  
21 an initial complaint in the United States District Court for the Central District of  
22 California, Southern Division – Santa Ana, against HP, Apotheker, and former  
23 defendant Catherine A. Lesjak ("Lesjak"), alleging violations of the federal  
24 securities laws. ECF No. 1.

#### 25 **A. Appointment Of Lead Plaintiffs**

26 17. On December 19, 2011, pursuant to the provisions of the PSLRA, the  
27 Court appointed the Institutional Investor Group as Lead Plaintiffs and approved  
28

1 its selection of Labaton Sucharow and Motley Rice to serve as Co-Lead Counsel  
2 representing the putative class. ECF No. 43. The Court directed Lead Plaintiffs  
3 to file their amended class action complaint by February 10, 2012.

4 **B. Defense Counsel In The Action**

5 18. Defendants assembled a formidable team of prominent and highly  
6 experienced defense firms to vigorously oppose the claims asserted by Lead  
7 Plaintiffs and the putative class. Their defense team was spearheaded by the  
8 nationally recognized law firms Morgan, Lewis & Bockius LLP and Gibson,  
9 Dunn & Crutcher LLP (counsel for defendant HP), and also included the leading  
10 law firms of: Munger, Tolles & Olson LLP (counsel for Individual Defendant  
11 Apotheker); Fenwick & West LLP (counsel for Individual Defendant Bradley);  
12 and Wilson Sonsini Goodrich & Rosati (counsel for Lesjak). These defense firms  
13 pursued an aggressive, well-executed, and relentless defense of their clients.

14 **C. The First Amended Class Action Complaint And Motion To  
15 Dismiss**

16 19. Lead Plaintiffs filed the First Amended Class Action Complaint for  
17 Violations of the Federal Securities Laws (“FAC”) on February 10, 2012. ECF  
18 No. 44. The FAC was the result of a significant effort by Plaintiffs’ Counsel  
19 which included, among other things: (i) review and analysis of documents filed  
20 by HP with the SEC; (ii) review and analysis of press releases, news articles, and  
21 other public statements issued by or concerning HP; (iii) review and analysis of  
22 research reports issued by financial analysts concerning HP’s securities and  
23 business; (iv) locating and contacting dozens of former HP employees and  
24 witnesses, the accounts of four of whom were included in the FAC as confidential  
25 witness (“CW”) accounts; and (v) review and analysis of news articles, media  
26 reports, and other publications concerning the “web,” the “cloud,” and related  
27 web-based information, including such topics as notebooks, smartphones, and  
28 PCs. The FAC named HP, Apotheker, Bradley, and Lesjak as defendants.

1           20.    Additionally, in their effort to prepare the FAC, Plaintiffs’ Counsel  
2 consulted with several consulting experts in the technology and web-based  
3 communications and data industries.

4           21.    Defendants filed motions to dismiss the FAC on April 11, 2012.  
5 ECF Nos. 57 & 58. In its memorandum of law asserting that the FAC alleged a  
6 theory of fraud that was implausible and unsupported, HP argued that Lead  
7 Plaintiffs were seeking to manufacture a claim out of the “unfortunate accident of  
8 timing” resulting from HP’s introduction of its TouchPad product on July 1, 2011,  
9 only a few months after Apple unveiled the “dominant iPad 2”. ECF No. 57.  
10 Defendants further argued, *inter alia*, that: (i) Lead Plaintiffs failed to specify any  
11 actionable misstatements or omissions with many of the challenged statements  
12 constituting mere “puffery,” or vague and inactionable optimistic statements;  
13 (ii) Defendants’ forward-looking statements about the Company’s intentions,  
14 hopes, plans, and visions for new software technology were protected by the  
15 PSLRA’s “Safe Harbor”; (iii) Lead Plaintiffs could not establish that the  
16 Company’s executives had actual knowledge that their forward-looking  
17 statements were materially false or that they acted with the requisite *scienter* when  
18 they made any non-forward-looking public statements concerning the status of the  
19 Company’s development of webOS-enabled products; (iv) none of the challenged  
20 statements amounted to securities fraud because they reflected, at most,  
21 differences of opinion among Company executives; and (v) that a more  
22 compelling theory than Lead Plaintiffs’ “implausible” theory that HP spent  
23 billions of dollars to develop and promote webOS and webOS-enabled devices,  
24 while supposedly not being committed to the venture, was that HP intended to  
25 successfully develop and sell webOS-enabled products but was compelled to  
26 discontinue its anticipated plans in the face of strong competition. ECF No. 57.

1           22. HP further argued that Lead Plaintiffs could not plead falsity or  
2 *scienter* with hindsight, nor could they demonstrate *scienter* based on the temporal  
3 proximity of their statements to the August 18, 2011 announcement ending the  
4 alleged class period, the so-called “core operations” doctrine or general  
5 allegations of “access” or “monitoring” of information about HP’s webOS  
6 development. ECF No. 57.

7           23. On April 11, 2012, the Individual Defendants also filed a  
8 memorandum of law in support of the motion to dismiss the FAC. ECF No. 58.  
9 The Individual Defendants “join[ed] Hewlett-Packard Company’s motion to  
10 dismiss and each of the arguments raised therein.” *Id.*

11           24. On June 11, 2012, Lead Plaintiffs filed a fifty page opposition to  
12 Defendants’ motion to dismiss the FAC. Lead Plaintiffs’ Omnibus Memorandum  
13 of Points and Authorities in Opposition to Defendants’ Motions to Dismiss First  
14 Amended Class Action Complaint (the “Opposition”), ECF No. 72, laid out Lead  
15 Plaintiffs’ theory of the case: seeking a share of the rapidly growing market in  
16 mobile, web-connected devices such as smartphones, but with no proprietary  
17 software of its own, HP acquired Palm, Inc. (“Palm”) in 2010, mainly for webOS,  
18 Palm’s mobile operating system. Using webOS as the “foundation,” HP  
19 announced it would create a broad, unified “ecosystem” of devices that would  
20 encompass smartphones, tablets, and HP’s PCs and printers, all “seamlessly”  
21 connected through the “cloud” by webOS. Defendants introduced three webOS  
22 devices developed by HP, emphasizing the “seamless connectivity” between HP’s  
23 new tablet computer, the “TouchPad,” and two webOS-enabled smartphones. The  
24 Touchpad, HP’s flagship webOS product, was touted by Defendants for months  
25 before its launch. Defendants stated that the TouchPad would not be released  
26 until it was “perfect.” Defendants repeatedly represented that HP would extend  
27 this existing group of webOS devices to printers and PCs to create a full  
28

1 “ecosystem” of connected devices. In particular, Defendants stated that:  
2 “[d]evelopment teams across Hewlett-Packard are working to bring webOS and  
3 the webOS experience to the Windows PCs”; “we have the potential to deliver  
4 tens if not hundreds of millions of web OS enabled devices annually”; HP would  
5 “introduce . . . webOS to our millions of PC customers later [in 2011]”; and, “as  
6 [2011] progresses,” the Company would “tak[e] webOS to other devices,  
7 including printers.” Lead Plaintiffs further alleged that, other than a few nascent,  
8 exploratory projects that could not possibly have led to marketable products  
9 within a year, Defendants had no viable plans to extend webOS to printers and  
10 PCs, and that no official “Plan of Record” (“POR”) existed for such products. In  
11 addition, Lead Plaintiffs alleged that, just a few weeks after publicly reaffirming  
12 HP’s commitment to developing webOS-enabled PCs and printers as a central  
13 component of the webOS “ecosystem,” the Company abruptly announced it would  
14 abandon the entire webOS product line, including its highly touted TouchPad,  
15 which was far from being “perfect” and was knowingly launched with multiple  
16 software “bugs.” ECF No. 72.

17 25. In their Opposition, Lead Plaintiffs argued that the accounts of the  
18 confidential witnesses supporting the FAC were well-pleaded and reliable and that  
19 Defendants were improperly challenging factual assertions. Lead Plaintiffs  
20 argued that Defendants’ statements regarding webOS were not “mere puffery.”  
21 Lead Plaintiffs further argued that Defendants’ statements were not protected or  
22 insulated by the PSLRA’s “safe harbor” because: (i) they were not forward-  
23 looking; (ii) they were not identified as forward-looking; and (iii) any cautionary  
24 language required to invoke the safe-harbor protection was not “meaningful.”  
25 ECF No. 72.

26 26. Lead Plaintiffs also argued that the FAC adequately pleaded a strong  
27 inference of *scienter*, positing that *scienter* was supported by reliable confidential  
28

1 witnesses, the temporal proximity between late-class period statements and HP's  
2 complete abandonment of webOS, the magnitude of the Company's write-down  
3 of its webOS investment and project development, the inferences arising from the  
4 "core operations doctrine," and the termination of Apotheker, HP's Chief  
5 Executive Officer. ECF No. 72.

6 27. On July 11, 2012, HP and Individual Defendants Apotheker, Lesjak,  
7 and Bradley filed their forty-nine page Omnibus Reply in Support of Defendants'  
8 Motions to Dismiss First Amended Class Action Complaint, ECF No. 73. In that  
9 submission, Defendants argued that Lead Plaintiffs had failed to show that  
10 Defendants' statements were false when made and, further, that the accounts of  
11 the confidential witnesses were not reliable. Defendants also contended that the  
12 alleged false statements were inactionable because: (a) they were forward-looking  
13 and (b) the required *scienter* for such forward-looking statements (i.e., actual  
14 knowledge of falsity, rather than mere recklessness) was not adequately pleaded  
15 as to any of the Defendants. Defendants further emphasized, *inter alia*, that there  
16 can be no actionable securities fraud claim based on forward-looking statements  
17 that were identified as such and were accompanied by meaningful cautionary  
18 language. ECF No. 73.

19 28. On August 29, 2012, after a hearing and thorough argument, the  
20 Court issued its Order Granting Motions to Dismiss, with leave given to Lead  
21 Plaintiffs to file an amended complaint. ECF No. 82 (the "August 2012 Order").

22 29. The Court rejected Lead Plaintiffs' core argument that cautionary  
23 language accompanying a forward-looking statement is not meaningful where  
24 Defendants allegedly knew that those statements were false when made. Hence,  
25 the Court ruled that statements made during HP's February 22, 2011 earnings call,  
26 its March 14, 2011 Summit, its May 17, 2011 earning call, and in its June 8, 2011  
27 Form 10-Q – all of which the Court concluded were forward-looking and  
28

1 accompanied by meaningful cautionary language – were protected by the  
2 PSLRA’s safe harbor and could not be relied upon to establish liability under  
3 § 10(b) of the Exchange Act or Rule 10b-5 promulgated thereunder. ECF No. 82.

4 30. The Court also considered Defendants’ contention that any alleged  
5 misstatements that were not protected by the PSLRA safe-harbor nonetheless  
6 could not support a securities fraud claim because they constituted “immaterial,  
7 inactionable puffery.” Upon reviewing Defendants’ alleged misstatements  
8 concerning webOS-enabled PCs and printers, and HP’s commitment to webOS,  
9 the Court concluded that statements by Bradley, reported in a July 6, 2011 article,  
10 and HP’s statements in its July 11, 2011 Press Release constituted inactionable  
11 puffery, “as do *some* of Apotheker’s June 2011 remarks and *some* of Bradley’s  
12 July 2011 comments.” With regard to the issue of actionable false statements, the  
13 Court ruled that, of the misstatements alleged in the FAC that were not protected  
14 by the PSLRA’s safe harbor, only Bradley’s February 9, 2011 statements and  
15 some of Apotheker and Bradley’s June and July 2011 statements were potentially  
16 actionable. ECF No. 82 at 20.

17 31. With regard to the element of *scienter*, the Court determined that the  
18 FAC failed to raise “a strong inference of scienter – *i.e.*, a strong inference that the  
19 defendant acted with intent to deceive, manipulate or defraud.” Reviewing the  
20 FAC’s *scienter* allegations standing alone, the Court determined that allegations  
21 of “temporal proximity” of Defendants’ late-class period misstatements to HP’s  
22 discontinuation of webOS were not adequate to support *scienter*, stating that  
23 “Plaintiffs’ allegations that Defendants knowingly lied about HP’s commitment to  
24 webOS are undermined by their inconsistent allegations concerning HP’s July and  
25 August 2011 efforts to improve flaws in certain webOS devices.” ECF No. 82 at  
26 29.

1           32. The Court also determined that the magnitude of HP’s webOS-related  
2 write-downs could not, standing alone, sufficiently support *scienter*. Upon  
3 considering the application of the “core operations doctrine,” the Court  
4 determined that webOS was not shown to be a “core” part of the Company’s  
5 business given that webOS devices constituted only one component of HP’s  
6 Personal Systems Group (“PSG”) business unit, which also was responsible for  
7 the design, manufacturing and marketing of PCs.<sup>5</sup> The Court also rejected the  
8 notion that Apotheker’s termination by the Company, in and of itself,  
9 demonstrated *scienter*. Then, viewing the allegations as a whole, the Court found  
10 that the totality of the allegations failed to raise a strong inference of *scienter*,  
11 while observing that a compelling inference could be drawn from the allegations  
12 that would negate Apotheker’s *scienter*. As noted above, the Court granted  
13 Defendants’ motion to dismiss with leave to amend. ECF No. 82 at 35.

14           **D. The Second Amended Class Action Complaint And Defendants’**  
15           **Motions To Dismiss And Subsequent Motion For Reconsideration**

16           33. Following the Court’s order dismissing the FAC, Plaintiffs’ Counsel  
17 renewed its investigation efforts, initiating contact or re-contacting numerous  
18 potential confidential witnesses and speaking with them. Overall, Plaintiffs’  
19 Counsel located almost 200 former HP employees and other persons with relevant  
20 knowledge, contacting more than 150 of them and interviewing almost 60  
21 potential witnesses. Plaintiffs’ Counsel also worked with experts in order to  
22 bolster and improve the allegations against Defendants. This intensive additional

23 \_\_\_\_\_  
24 <sup>5</sup> Following its acquisition by HP, Palm was integrated into HP’s PSG  
25 business unit as the Palm Global Business Unit (“Palm GBU”). In addition to the  
26 PSG, the Company was divided into several other business units including the  
27 Imaging and Printing Group (“IPG”), which was responsible for the design,  
28 manufacture and marketing of HP’s printers.

1 investigation required a tremendous effort in a short period of time. Plaintiffs’  
2 Counsel worked long and hard to further develop and refine Lead Plaintiffs’  
3 theory of the case and draft an amended pleading that could satisfy the heightened  
4 pleading standards required by the PSLRA, without the benefit of formal  
5 discovery.

6 34. On October 19, 2012, Lead Plaintiffs filed the Second Amended  
7 Class Action Complaint for Violations of the Federal Securities Laws asserting  
8 claims against HP and Individual Defendants Apotheker and Bradley. The  
9 Complaint was supported by numerous additional CWs and asserted a more  
10 focused and refined theory of liability on behalf of a modified class extending  
11 from February 9, 2011 through August 18, 2011, inclusive, as more fully  
12 discussed below. ECF No. 89. To the extent that subsequent discovery  
13 substantiated the original class period, which began on November 22, 2010, Lead  
14 Plaintiffs would have sought to amend the Complaint to reassert the class period  
15 originally asserted in the FAC.

16 35. On December 3, 2012, Defendants moved to dismiss the Complaint.  
17 ECF No. 96. The Memorandum of Points and Authorities in Support of  
18 Defendants’ Motion to Dismiss Second Amended Complaint, ECF No. 96-1,  
19 addressed the new and amended allegations of the Complaint, while also  
20 advancing many of the same legal arguments that were successful in securing the  
21 dismissal of the FAC. Characterizing the Complaint as focusing “primarily on  
22 predictions and aspirational statements about how HP would develop and  
23 commercialize webOS in the future,” Defendants argued that the Complaint’s “13  
24 new ‘Confidential Witnesses’ (“CWs”) still fail[ed] to allege the key facts  
25 necessary for any viable fraud claim,” namely that webOS was not being  
26 developed in other parts of the Company, that it would have been impossible to  
27 put webOS on PCs or printers within the aspirational time frame, and that each  
28

1 speaking defendant knew that the challenged statements – all forward-looking –  
2 were false when made. ECF No. 96-1 at 1. Arguing that nothing in the  
3 Complaint would alter the Court’s prior ruling that certain statements challenged  
4 by Lead Plaintiffs were protected by the PSLRA’s safe harbor, and that no  
5 remaining statements had been adequately shown to have been false or made with  
6 the requisite *scienter* required by the PSLRA, Defendants asserted that Lead  
7 Plaintiffs’ theory of fraud remained entirely “irrational” because, among other  
8 things, “the theory that HP would spend more than \$1 billion to acquire Palm, Inc.  
9 (“Palm”) and webOS, devote substantial time and resources to webOS hardware  
10 and software development, including developing and marketing the TouchPad,  
11 and repeatedly highlight its hopes for webOS – all while concealing that HP was  
12 not committed to the webOS ecosystem – makes no sense.” ECF No. 96 at 4.  
13 Defendants further noted that “the purported fraud was, by definition, short term  
14 and irrational since – under Lead Plaintiffs’ theory – the ‘truth’ would be  
15 disclosed when no webOS-enabled PCs and printers were released on the timeline  
16 projected. Nor do Lead Plaintiffs point to any motive to commit fraud.” *Id.*  
17 Indeed, Defendants noted that none of the Individual Defendants sold any stock  
18 during the class period, when the price was supposedly inflated, adding that “to  
19 the contrary, in March 2011, Bradley exercised options and *held* those options  
20 throughout the putative class period.” *Id.*

21 36. Lead Plaintiffs fiercely opposed Defendants’ second effort to secure  
22 dismissal. Lead Plaintiffs’ fifty-page Memorandum of Points and Authorities in  
23 Opposition to Defendants’ Motion to Dismiss Second Amended Class Action  
24 Complaint, filed January 17, 2013, noted preliminarily that the Complaint,  
25 bolstered by the accounts of seventeen confidential witnesses, provided a “new  
26 focus” respecting Lead Plaintiffs’ claims and that contrary to Defendants’  
27 characterization of the case, the Complaint was not premised on

28

1 misrepresentations regarding their subjective and forward-looking “commitment”  
2 to webOS as an overall strategy. ECF No. 98 at 1. Lead Plaintiffs further noted  
3 that the Complaint focused on Defendants’ repeated statements that HP had  
4 invested in, and then-currently possessed, the technological and operational  
5 capability to expand its nascent webOS “mini-ecosystem” (consisting of the  
6 TouchPad and two smartphones) to a full-fledged ecosystem of hundreds of  
7 millions of “seamlessly” connected webOS-enabled personal computers and  
8 printers, all within the short time frame of two years. Lead Plaintiffs focused the  
9 Court on two essential themes conveyed by Defendants’ statements: (1) that by  
10 the end of 2011 HP would have placed webOS on PCs and printers (Bradley  
11 stating that people would see webOS on printers “as the year progresses” and on  
12 PCs “later this year”), and (2) that by 2012 the Company would begin producing  
13 over 100 million webOS-enabled PCs and printers annually. ECF No. 98 at 2.

14 37. Lead Plaintiffs further argued that the Complaint alleged that there  
15 was never any POR for webOS-enabled PCs and printers and thus, no budget or  
16 resources allocated to develop such devices, making it impossible for such  
17 products to be introduced during the time period that Defendants represented.  
18 Furthermore, the Complaint alleged that the webOS division was unable to devote  
19 any resources to developing the webOS code for such devices because they were  
20 focusing exclusively on the troubled TouchPad, and no other division had the  
21 expertise to “cut” the webOS code for different devices. The Complaint also  
22 alleged that a hiring freeze at HP prevented the Company from allocating  
23 resources to developing webOS-enabled PCs and printers. Moreover, the  
24 Complaint alleged that in April 2011, the PC and printer groups were instructed to  
25 “cease all plans to integrate webOS into their products without executive level  
26 approval,” and that internal financial projections as far as the end of 2012 revealed  
27 that HP did not expect any revenue from webOS-enabled PCs or printers during  
28

1 that timeframe. ECF No. 98 at 3. Lead Plaintiffs argued that Defendants'  
2 statements were false, made with the requisite *scienter*, and were not protected by  
3 the PSLRA's safe harbor provisions. Lead Plaintiffs specifically noted that many  
4 of Defendants' statements were not forward-looking and that others were a  
5 mixture of present facts and future predictions and thus not protected by the safe  
6 harbor. ECF No. 98.

7 38. On February 11, 2013, Defendants filed a thirty-six page Reply Brief  
8 in Support of Defendants' Motion to Dismiss Plaintiffs' Second Amended Class  
9 Action Complaint. ECF No. 100. In that submission, Defendants asserted the  
10 challenged statements were all forward-looking and, therefore, protected by the  
11 PSLRA's safe harbor and that, to the extent any forward-looking statements were  
12 not so insulated, the Complaint failed to demonstrate a strong inference that those  
13 forward-looking statements were made with the requisite *scienter* or actual  
14 knowledge. Defendants reiterated their argument that the Complaint did not  
15 sufficiently allege that their challenged statements were false when made and that  
16 the Complaint failed to remedy the deficiencies previously cited by the Court with  
17 respect to falsity or *scienter*. ECF No. 100.

18 39. On February 28, 2013 the Court requested supplemental briefing to  
19 address a U.S. Supreme Court decision in *Amgen, Inc. v. Connecticut Retirement*  
20 *Plans & Trust Funds*, 133 S. Ct. 1184 (2013), and reset the hearing on the motion  
21 to dismiss. ECF No. 105. Thereafter, on March 18, 2013, the Court held an  
22 extensive oral argument on Defendants' motion to dismiss the Complaint. On  
23 May 8, 2013, the Court issued its Order Granting in Part and Denying in Part  
24 Motion to Dismiss. ECF No. 110 ("May 8, 2013 Order").

25 40. The Court observed that the Complaint focused more squarely on  
26 Lead Plaintiffs' argument that Defendants misrepresented *when* webOS would be  
27 put on PCs and printers. As the Court explained:

28

1 This argument is based primarily on [the] following four alleged  
2 misstatements:

3 (1) Bradley's statements at the February 9, 2011 "WebOS  
4 Announcement" that "I'm excited to announce our plans to bring  
5 WebOS to the HP device that has the biggest reach of all: the  
6 personal computer. So across HP, we have phenomenal people  
7 working hard to enhance our customers' already familiar  
8 experience with the PC to add a rich set of applications and  
9 services that only WebOS offers, and as we introduce that  
10 WebOS to our millions of PC customers *later this year . . . .*"  
11 (*Id.* ¶ 140 (emphasis added).)

12 (2) Bradley's statement at HP's March 14, 2011 Summit that "[o]ur  
13 goal with web OS and our unique opportunity is really to extend  
14 web OS to the broadest range of products available . . . . With  
15 this in mind, we'll be extending the ecosystem beyond phones  
16 and tablets. Development teams across HP are working to bring  
17 web OS and the web OS experience to the Windows PCs. *Next*  
18 *year*, we'll migrate tens of millions of web connected printers  
19 into the ecosystem. . . . In the figure [sic], across smart phones,  
20 TouchPads, PCs, printers, we have the potential to deliver tens if  
21 not hundreds of millions of web OS enabled devices annually  
22 into a huge installed base.["] (*Id.* ¶ 158 (emphasis added).)

23 (3) Apotheker's statement at the March 14, 2011 Summit that  
24 "[t]here will be a beta version for web OS running on a browser  
25 on PCs available at the *end of the year* and you will see us  
26 putting web OS on the (inaudible) technology on PCs, on  
27 Windows PCs I should add, starting from that point onwards.  
28

1           And we hope to reach 100 million devices a year.” (*Id.* ¶ 162  
2           (emphasis added).)

3           (4) Apotheker’s statement during an interview at the June 2, 2011  
4           Conference. (*Id.* ¶ 179.) During the interview, Apotheker and  
5           the analyst discussed “when webOS would be on the Company’s  
6           PCs.” (*Id.*)

7           [Analyst:] “Do you have a date for that? webOS on the PC?”

8           [Apotheker:] “**2012**. I know there are 12 months in 2012, even in  
9           Germany. And then we have – and we are going to put webOS  
10          also on printers. So we can create the kind of a platform of about  
11          100 million, 110 million devices a year.” (*Id.* (emphasis  
12          added).[]])

13          May 8, 2013 Order at 11-12 (second, fifth, sixth, and seventh alterations in  
14          original).

15          41. With respect to the PSLRA’s safe harbor, the Court found no reason  
16          to change its August 2012 Order ruling that the following statements were  
17          forward-looking and accompanied by meaningful cautionary language and thus  
18          were protected by the PSLRA’s safe harbor: (1) statements made during the  
19          February 22, 2011 Earnings Call; (2) statements during the March 14, 2011  
20          Summit; (3) statements made during the May 17, 2011 Earnings Call; and  
21          (4) statements in the June 8, 2011 Form 10-Q. In addition, the Court ruled that the  
22          PSLRA’s safe harbor also protected the challenged statements in HP press  
23          releases on March 14, 2011 and July 11, 2011. May 8, 2013 Order at 13-14.

24          42. While the Court accepted Defendants’ argument that it should not  
25          change its August 2012 Order that certain “Puffing Statements” were not  
26          actionable, it also reaffirmed that “Defendants’ statements about timing for  
27  
28

1 developing webOS-enabled PCs and printers cannot be dismissed as puffery.”

2 May 8, 2013 Order at 15. The Court found that:

3 the following aspirational statements made by Apotheker at the June 2011  
4 Conference are too vague for a reasonable investor to rely on them:  
5 statements (1) that Apotheker hopes HP “can disrupt the market” with  
6 WebOS; (2) that “we are all about WebOS”; (3) that “[i]t’s about the  
7 webOS much more than about device A or device B”; and (4) that “we are  
8 doing really well on the PSG side of the house [with] webOS.”

9 *Id.* at 15-16; *see also* Complaint ¶¶ 181-82.

10 43. In order to determine whether the Complaint adequately pleaded  
11 “falsity,” the Court reviewed whether Lead Plaintiffs had described the accounts  
12 of confidential witnesses adequately. The Court concluded that CWs 1-3 were  
13 described with sufficient particularity, as it had previously ruled in the August  
14 2012 Order. The Court also found that prior deficiencies respecting CW 4 had  
15 been cured. Turning its attention to the thirteen new CWs, the Court concluded  
16 that they were pleaded sufficiently, thus enabling it to consider all CW accounts as  
17 pleaded in the Complaint. May 8, 2013 Order.

18 44. Relying on the well-pleaded accounts of CWs, and after a thorough  
19 review and discussion, the Court concluded that Bradley’s February 9, 2011  
20 statement was adequately alleged to have been false when made. The Court  
21 reached the same conclusion with respect to statements made by “Apotheker at the  
22 June 2011 Conference, by Apotheker during the June 2011 Interview, and by  
23 Bradley in the July 2011 Article, to the extent that these statements [were] not  
24 inactionable puffery.” *Id.* at 25.

25 45. The Court also held that the issue of scienter presented a “close  
26 question” when the allegations of the Complaint were viewed in their entirety. In  
27 that regard, the Court stated that only the Complaint’s allegations concerning the  
28

1 June and July 2011 statements raised a “strong inference” of *scienter* sufficient to  
2 satisfy the pleading requirements of the PSLRA. *Id.* at 32. Thus, Defendants’  
3 motion to dismiss the Complaint was granted in part and denied in part.

4 46. On May 22, 2013, Defendants moved for reconsideration of the  
5 Court’s May 8, 2013 Order. ECF No. 113. Lead Plaintiffs opposed the Motion  
6 for Reconsideration on June 4, 2013, ECF No. 117, to which Defendants  
7 responded on June 10, 2013, ECF No. 119. On June 17, 2013, the Court denied  
8 the Motion for Reconsideration and also denied Defendants’ request to certify its  
9 ruling for appeal. ECF No. 120.

10 47. On July 17, 2013, Defendants filed their Answer denying the material  
11 allegations of the Complaint and demanding a jury trial. ECF No. 124.

12 **E. Joint Rule 26(f) Report, Scheduling Order, And Case**  
13 **Management**

14 48. Amid Defendants’ efforts to secure the dismissal of the Action, on  
15 October 25, 2012, the parties filed a Joint Case Management Report pursuant to  
16 Federal Rule of Civil Procedure 26(f). ECF No. 91. That report followed a meet-  
17 and-confer process.

18 49. On November 5, 2012, the Court held a Rule 16 Scheduling  
19 Conference and entered a Scheduling Order setting a discovery cut-off of July 7,  
20 2014, a final pre-trial conference for September 22, 2014 and a jury trial for  
21 October 7, 2014. ECF No. 93. All discovery remained stayed at that time,  
22 however, given the automatic stay provision of the PSLRA.

23 50. Once the PSLRA’s automatic stay of discovery was lifted by virtue  
24 of the Court’s May 8, 2013 Order, and following additional extensive conferences  
25 and negotiation, the parties entered into a Joint Stipulation Re: Confidential and  
26 Protected Information, which the Honorable Magistrate Judge Robert N. Block  
27 granted by order entered October 3, 2013. ECF Nos. 142, 143.

1 **IV. EXTENSIVE FACT DISCOVERY, INVESTIGATION, AND ANALYSIS**

2 51. Subsequent to the May 8, 2013 Order, the parties met and conferred  
3 concerning the scope of discovery, the exchange of initial disclosures, and  
4 discovery protocols, including an Electronically Stored Information (“ESI”)  
5 Protocol and a Privilege Log Protocol. On August 16, 2013, the parties  
6 exchanged initial disclosures. Thereafter, Lead Plaintiffs and Defendants began  
7 evidentiary discovery.

8 52. Prior to reaching the Settlement, Defendants produced and Plaintiffs’  
9 Counsel reviewed more than 314,000 pages of core documents. This discovery is  
10 discussed below.

11 **A. Discovery Propounded On Defendants**

12 53. On June 28, 2013, Lead Plaintiffs served their first set of document  
13 requests on Defendants. These expansive, thorough requests covered forty-six  
14 separate categories. HP served its written responses and objections to those  
15 requests on July 29, 2013.

16 54. As discovery progressed, Defendants and Lead Plaintiffs discussed  
17 the utility of engaging a neutral mediator for the purpose of exploring a resolution  
18 of the Action. To that end, the Settling Parties agreed to engage Judge Phillips,  
19 who has extensive experience in mediating complex securities class actions. In  
20 connection with the mediation, Defendants produced over 314,000 pages of  
21 critically relevant and important documents between October 2013 and December  
22 2013. These documents included, *inter alia*: (i) Company emails; (ii) internal  
23 memoranda from HP; (iii) corporate minutes of the Company’s board of directors;  
24 (iv) spreadsheets from HP regarding webOS-related projects; (v) Company  
25 submissions to the SEC; (vi) the source materials utilized by HP in connection  
26 with the Company’s webOS development; (vii) slide show presentations  
27 concerning HP’s financial, operations, and project planning; and (viii) draft public  
28 statements concerning webOS projects. In connection with the mediation,

1 Defendants also provided written responses to certain interrogatories that had been  
2 propounded previously by Lead Plaintiffs.

3 55. Plaintiffs' Counsel made great efforts and employed significant  
4 resources, including technical resources, to review and cull Defendants'  
5 production. To properly analyze and process this technical and proprietary  
6 information in a cost-effective and efficient manner, Plaintiffs' Counsel developed  
7 a document review process that encompassed a number of resources.

8 56. First, in order to facilitate the cost and time-efficient nature of this  
9 process, documents were placed in an electronic database that was created and  
10 maintained by Motley Rice. The database allowed Plaintiffs' Counsel to search  
11 for documents through Boolean-type searches, as well as by multiple categories,  
12 including author and/or recipients, type of document (e.g., emails, memoranda,  
13 and SEC filings), date, and Bates number. The database also provided a  
14 streamlined ability to cull and organize witness specific documents in folders for  
15 review and any necessary mediation preparation.

16 57. Second, to perform an initial review of Defendants' document  
17 production, a team of attorneys was assembled by Plaintiffs' Counsel. The  
18 majority of the attorneys working on the review possessed extensive experience  
19 reviewing documents in complex cases, including cases of a technical nature.

20 58. These attorneys focused on reviewing Defendants' document  
21 production for the purpose of preparing for the mediation and gathering evidence  
22 to prove Lead Plaintiffs' allegations. These attorneys also were instrumental in  
23 identifying potential gaps in Defendants' production.

24 59. Much of the initial review ("first level review") was conducted by  
25 attorneys experienced in electronic document discovery in securities and complex  
26 cases, many of whom had performed similar functions in other matters. These  
27 attorneys utilized review guidelines and protocols that were put in place and  
28

1 monitored regularly to ensure efficient and accurate review of the documents.  
2 This initial review was structured to avoid duplicative work and to minimize, to  
3 the extent possible, the amount of hours necessary for document review. An  
4 experienced team of attorneys oversaw the review to ensure that it was as  
5 thorough and efficient as possible and to thereafter closely examine the more  
6 probative or “hot” documents.

7 60. All aspects of the document review were carefully supervised to  
8 eliminate inefficiencies and to ensure a high quality work-product. This  
9 supervision included multiple in-person training sessions, the creation of a set of  
10 relevant materials and protocols, including a coding sheet, presentations regarding  
11 the key legal and factual issues in the case, and in-person instruction from more  
12 senior attorneys. The attorneys performing document review were instrumental in  
13 uncovering documents that could be used to advance Lead Plaintiffs’ case during  
14 mediation and thereby helped to achieve the successful result: securing a  
15 settlement of \$57 million on behalf of the Settlement Class.

16 61. As more fully discussed in Part V below, Plaintiffs’ Counsel also  
17 relied on experts to assist with more complicated analysis as necessary. The key  
18 allegations in the Action concerned multi-platform hardware, software, and  
19 operating system product development, as well as related planning and budgeting  
20 issues beyond the knowledge and understanding of a lay person. These issues  
21 required objective expert input from consultants with experience in software,  
22 hardware and operating system product development who could opine on the  
23 feasibility of the development timeline of webOS for PCs and printers. Special  
24 expertise also was required to analyze internal Company documents in order to  
25 assess what, if any, progress HP had made with respect to meeting its publicly  
26 stated timelines or its internal development milestones.

27  
28

1           62. Throughout the discovery process, Plaintiffs' Counsel analyzed not  
2 only what was produced, but also tracked discovery that potentially was still  
3 outstanding. Plaintiffs' Counsel held numerous meet-and-confer sessions with  
4 Defendants' Counsel concerning Defendants' production to ensure the production  
5 of all agreed-upon materials. On several occasions, Lead Plaintiffs and  
6 Defendants exchanged correspondence concerning additional areas of production.

7           **B. Discovery Propounded On Lead Plaintiffs**

8           63. Lead Plaintiffs also actively responded to discovery requests. On  
9 August 16, 2013, Defendants served their First Set of Document Requests on Lead  
10 Plaintiffs. Lead Plaintiffs served their written responses and objections on  
11 September 16, 2013.

12           64. On August 16, 2013, HP served a set of twelve interrogatories on  
13 Lead Plaintiffs. Lead Plaintiffs served written responses and objections to these  
14 interrogatories on September 16, 2013.

15           65. Lead Plaintiffs took steps to gather responsive documents, including  
16 ESI material, for production to Defendants.

17           **V. LEAD PLAINTIFFS' EXPERTS**

18           66. Lead Plaintiffs consulted with several experts during the pendency of  
19 the Action, including several industry experts. Those experts assisted with the  
20 analysis of complex information and evidence and provided insight into the  
21 documents needed to be secured through discovery. Proceeding in an efficient  
22 manner, Plaintiffs' Counsel utilized one of the technical experts to more fully  
23 review documents produced by HP. Lead Plaintiffs' main industry expert was  
24 able to assess complex information produced by HP to determine whether the  
25 statements Defendants made about webOS development, planning, and timing  
26 were reasonable when made.

1           67. Lead Plaintiffs also consulted with an econometric and damages  
2 expert who analyzed the alleged class period disclosures and information available  
3 in the market to determine the market price effect of Defendants’ purported false  
4 and misleading statements and alleged damages as a result thereof. This was  
5 critical given Defendants’ challenges on the elements of “loss causation,”  
6 “materiality” and “reliance” and the complicated issue of disaggregating or  
7 otherwise parsing fraud-related versus non-fraud related aspects of the disclosures  
8 issued by HP on August 18, 2011, which ended the class period.

9           68. Lead Plaintiffs’ econometric and damages expert drafted a detailed  
10 expert report and exhibits prior to Lead Plaintiffs and Defendants entering into  
11 mediated discussions and the Settlement. This analysis was valuable in helping  
12 Plaintiffs’ Counsel achieve the Settlement.

13 **VI. RISKS FACED BY LEAD PLAINTIFFS IN THE ACTION**

14           69. Based on publicly available information, documents obtained through  
15 Lead Plaintiffs’ informal investigation, discussions with expert consultants, and  
16 the extensive review of documentary evidence secured in the Action, Lead  
17 Plaintiffs believe that they would be able to adduce evidence to establish Lead  
18 Plaintiffs’ claims. However, Lead Plaintiffs also realize that they faced  
19 considerable risks and defenses in continuing the Action against Defendants.  
20 Lead Plaintiffs and their counsel carefully considered these risks during the  
21 months leading up to the Settlement and throughout the settlement discussions  
22 with Defendants and Judge Phillips.

23           70. In particular, throughout the course of the litigation, Defendants  
24 raised a number of arguments and defenses (which they likely would raise at  
25 summary judgment and trial) including that: (i) there were no actionable  
26 misstatements and omissions; (ii) Class Members assumed the risk of investing in  
27 HP stock; (iii) Lead Plaintiffs would not be able to establish that Defendants acted

1 with the requisite fraudulent intent and particularly the *scienter* requirement of  
2 “actual knowledge” respecting Defendants’ forward-looking statements; (iv) the  
3 market did not rely on Defendants’ optimistic statements, nor were they material  
4 to the market, as evidenced by the fact that Defendants’ June and July 2011  
5 statements did not inflate HP’s stock price and, indeed, occasioned an immediate  
6 decline in price; (v) the market was fully aware of competitive forces that could  
7 limit continuing development of any webOS-enabled ecosystem and devices,  
8 including successful new product offerings by Apple amid HP’s problems with its  
9 Touchpad product launch and sales; (vi) Lead Plaintiffs could not establish the  
10 required element of “loss causation” because the stock price decline in question  
11 was not caused by any fraud-related disclosure; and (vii) the market reacted to not  
12 one but four pieces of news simultaneously announced on August 18, 2011, three  
13 of which did not reveal any allegedly fraudulent statements or omissions, thus  
14 making it impossible to reliably disaggregate the stock price decline to determine  
15 what portion was substantially fraud-related. Some of the most serious risks that  
16 adversely prejudiced or threatened the Class’s recovery are more fully discussed  
17 below.

18 **A. Risk Concerning Falsity**

19 71. In order for the Lead Plaintiffs to prevail, they would first have to  
20 establish that Defendants made an actionable false or misleading statement or  
21 material omission. Defendants would undoubtedly argue that Lead Plaintiffs  
22 could not demonstrate that any of their statements were fraudulent, maintaining as  
23 they have throughout the litigation that nothing they said was false, deceptive, or  
24 misleading when these statements were made.

25 72. It is anticipated the Defendants would attempt to contradict Lead  
26 Plaintiffs’ allegations about the lack of resources and commitment to webOS-  
27 enabled PCs by marshaling evidence demonstrating that the Company wholly  
28

1 supported webOS PC development; that HP paid the extraordinary sum of  
2 \$1.2 billion in order to acquire Palm, thus evincing its sincere and significant  
3 commitment to webOS; that numerous HP employees in its Fort Collins, Colorado  
4 location and elsewhere were working on webOS-enabled PCs; that HP employees  
5 had access to the webOS code; that webOS development had an approved POR;  
6 and that webOS-enabled PCs were on track to go to the market in 2012.

7 73. Defendants could be expected to argue that HP had several different  
8 webOS projects that it was developing. Among these, Defendants likely would  
9 highlight the “Rio” project, which was established in order to develop a version of  
10 webOS that would run as a Microsoft Windows application, rather than as a  
11 standalone operating system, as described by Apotheker in June 2011 (“webOS  
12 will be available on PCs on top of Windows”) and by Bradley in July 2011 (HP  
13 intends “to enable all of our PC users to access their webOS environment, their  
14 applications on their PCs”). Lead Plaintiffs further anticipated that Defendants  
15 would proffer as witnesses employees within Palm and HP in support of their  
16 contention that Rio development was moving forward, that the development was  
17 passing important design objective check points for the program, that the  
18 Company had received approval to proceed, and that it was preparing for the POR  
19 check-point.

20 74. With regard to Lead Plaintiffs’ contentions that HP was not devoting  
21 resources to webOS development, that no one outside the Palm GBU had access  
22 to the webOS code, and that only a “small exploratory team with no access to the  
23 webOS code worked on webOS-enabled PCs,” Defendants likely would contend  
24 that there were numerous individuals with access to the webOS code who were  
25 working on creating webOS-enabled PCs and that those individuals were not  
26 simply “only the webOS team,” but rather a broader cross-section of employees.

1           75. Defendants also were expected to contend that even after the Palm  
2 GBU became focused on developing webOS-enabled phones and the webOS-  
3 enabled tablet the “TouchPad,” the Rio team still received assistance from Palm  
4 with a continuing focus to develop Rio, the project to run webOS on PCs, as well  
5 as related development of webOS for printers by the Palm GBU throughout the  
6 Spring and Summer of 2011. It also was likely Defendants would contend that  
7 substantial work on Rio proceeded after the POR was approved in January 2011,  
8 and that Rio was progressing as planned, with forecasts that Rio would be released  
9 in time for the end-of-year holidays in 2011 or during calendar year 2012.

10           76. With regard to Apotheker’s June 2, 2011 statement that “we are  
11 going to put webOS also on printers,” Defendants likely would contend that  
12 Apotheker was simply responding to a specific question from an analyst about the  
13 timing for putting webOS on PCs and replied “2012,” which he then followed  
14 with the stated general remark about HP’s ability to include printers in the mix of  
15 devices in the webOS system, without promising a date by which webOS printers  
16 would be on sale, or providing detail about what types of printers would run on  
17 webOS. Lead Plaintiffs further anticipated that Defendants would contend that  
18 there had been significant development on webOS printers and that HP’s IPG  
19 business unit had substantial resources devoted to, and had made substantial  
20 progress with, webOS printer development, with several teams in multiple  
21 locations within the printer group exploring the use of webOS in various types of  
22 printers. Additionally, Defendants likely would contend that there were  
23 communications as late as July 2011 demonstrating Palm and HP’s continued  
24 efforts to advance the webOS printer initiative, thus contradicting Lead Plaintiffs’  
25 claims that HP was merely “concepting” webOS printers.

26           77. Lead Plaintiffs also anticipated that Defendants would challenge  
27 statements referring to HP’s commitment to developing a webOS “ecosystem.”  
28

1 The Court characterized these statements as ones in which “Apotheker and  
2 Bradley specifically reaffirmed HP’s commitment” to “integrate [webOS-enabled  
3 PCs and printers] into a cohesive webOS platform and produce a large volume of  
4 such devices – 100-110 million annually.” Defendants were expected to contend  
5 that the Company was wholly committed to developing the webOS ecosystem and  
6 that it would make no sense to spend more than \$1 billion to acquire Palm if it  
7 was not so committed.

8 78. Defendants also were expected to contend that HP remained  
9 committed to creating a large webOS ecosystem involving many different types of  
10 devices and maintained that commitment at least through July 20, 2011, the date  
11 of the last statement challenged by Lead Plaintiffs.

12 **B. Risks Concerning *Scienter***

13 79. As a threshold matter, Defendants were expected to contend that the  
14 Individual Defendants, Apotheker and Bradley, did not benefit financially from  
15 the alleged fraud. In that regard, Lead Plaintiffs did not allege any illegal or  
16 suspicious insider stock sales or self-dealing by those defendants.

17 80. Defendants almost certainly would continue to argue that all of the  
18 statements challenged by Lead Plaintiffs were “forward-looking statements” (i.e.,  
19 statements regarding plans and objectives of future operations by management).  
20 With regard to such forward-looking statements, Defendants would continue to  
21 vigorously maintain that: (i) they are insulated from any liability by reason of the  
22 “safe harbor” for forward-looking statements as provided by the PSLRA; and  
23 (ii) with respect to unidentified forward-looking statements or those lacking  
24 sufficient cautionary language, Lead Plaintiffs nonetheless could not prove  
25 Defendants’ “actual knowledge” of their falsity at the time they were made.

26 81. It was further anticipated that Defendants would assert *vis-à-vis*  
27 *scienter*, the same arguments respecting HP’s devotion of significant resources to  
28

1 develop webOS-enabled PCs and printers and its commitment to developing the  
2 webOS ecosystem as discussed above, contending that none of the challenged  
3 statements made by Defendants were false and, regardless, were not knowingly  
4 false when made. Defendants also were expected to argue that any motive or  
5 explanation for committing the alleged fraud (i.e., any reason why an executive  
6 would build excitement about a product that was supposedly doomed to fail), was  
7 lacking. In other words, Defendants would posit that Lead Plaintiffs were asking  
8 the fact finder to believe that Defendants would act “irrationally,” as opposed to  
9 what Defendants likely would contend was a more obvious inference and  
10 explanation that, despite HP’s enthusiasm and commitment to webOS devices, its  
11 strategy had to be reconsidered given the Touchpad’s unexpected and  
12 disappointing sales results in July and August 2011 amid the success of a  
13 competing product introduced by Apple.

14 82. Specifically with regard to Bradley, he likely would contend that he  
15 did not know nor was he ever informed at any point prior to August 14, 2011, at  
16 the earliest, that webOS devices would be discontinued. Defendants had  
17 consistently maintained in their filings that this fact was reported in an August 19,  
18 2011 *All Things Digital* article.

19 83. Additionally, Defendants likely would have argued that any possible  
20 motive for fraud was belied by the fact the Individual Defendants lost significant  
21 amounts of their personal wealth when HP’s stock price dropped dramatically, but  
22 did not attempt to escape such losses and exploit their alleged knowledge of  
23 material adverse information by engaging in insider selling at any time prior to the  
24 revelation of the truth on August 18, 2011. Defendants would have been expected  
25 to contend that, to the contrary, Bradley exercised vested stock options, thus  
26 acquiring more shares of HP, at the very time Lead Plaintiffs contend Bradley  
27  
28

1 actually knew of material adverse information regarding the Company's plans for  
2 webOS.

3 **C. Risks Concerning Loss Causation, Materiality, And Damages**

4 84. Defendants also would have vigorously challenged Lead Plaintiffs'  
5 ability to establish the necessary *prima facie* element of loss causation and the  
6 calculation of damages.

7 85. Defendants contended, and likely would continue to maintain, that  
8 any potential investment losses suffered by Lead Plaintiffs and the Class were  
9 actually caused by external and independent factors rather than by any revelation  
10 of Defendants' alleged fraudulent conduct. In that regard, Defendants were  
11 expected to argue that HP announced multiple pieces of news on August 18, 2011,  
12 including announcements of reduced earnings guidance; HP's decision to acquire  
13 Autonomy Corporation plc, an acquisition at what many market professionals felt  
14 was a vastly excessive price; and HP's announcement of a potential spin-off of its  
15 PSG business unit. Hence, Defendants were expected to argue that, when a  
16 company announces multiple pieces of negative news on a single day, proving  
17 loss causation requires a plaintiff to offer reliable evidence allowing the fact finder  
18 to conclude that a fraud-related corrective disclosure was a substantial factor in  
19 the price decline. Defendants contended that the fact finder could not reasonably  
20 conclude that the webOS-related disclosure on August 18, 2011, was a substantial  
21 cause of the ensuing stock drop.

22 86. Indeed, Defendants were expected to point to numerous analyst  
23 reports published in the week following HP's August 18, 2011 announcement  
24 reflecting the fact that analysts did not attach significance to the announced  
25 discontinuation of webOS. For example, Defendants contended that several  
26 reports did not contain *any* reference to HP's decision to discontinue webOS  
27 devices, while a number of others contained references that were neutral.

1 Defendants contended that of the analyst reports that did offer a reaction to the  
2 announcement that HP would discontinue webOS-enabled devices, only two  
3 contained arguably mild negative reactions, while a number of reports were  
4 favorable, noting that the webOS shut down “makes sense,” or that it was the  
5 “right move.” Lead Plaintiffs also anticipated Defendants would proffer  
6 testimony and documentary evidence supporting the decision to shut down webOS  
7 in an effort to prove that the stock price drop in question was not caused by the  
8 webOS-related news.

9       87. Significantly, in *In re Oracle Corp. Securities Litigation*, 627 F.3d  
10 376 (9th Cir. 2010), the Ninth Circuit canvassed the many analyst reports that had  
11 been issued to investors and effectively weighed the number of reports that  
12 supported defendants’ contentions versus those that supported plaintiffs’  
13 contentions. *Id.* at 383. Finding that “a legion of analysts” offered opinions  
14 inconsistent with plaintiffs’ theory of the fraud, the Ninth Circuit affirmed the  
15 dismissal of the action. Here, given the prevailing Ninth Circuit jurisprudence,  
16 Defendants undoubtedly would have submitted a large bulk of analyst reports  
17 supporting their position that the webOS discontinuance was viewed as either  
18 positive or neutral by various analysts and thus had no negative impact on HP’s  
19 stock price.

20       88. Defendants also were expected to argue that Lead Plaintiffs could not  
21 prove that the challenged statements were even material to investors. Defendants  
22 would continue to maintain that given the failings of the TouchPad launch and  
23 strong competition from Apple, by June 2011 at the latest, investors did not care  
24 about webOS-enabled PCs or printers, or about an “ecosystem” that included  
25 these devices. This would have required a battle of experts which presented risk  
26 as to an essential element of Lead Plaintiffs’ *prima facie* case: materiality.

27  
28

1           89. Beyond the issues of loss causation and materiality, it also was  
2 incumbent on Lead Plaintiffs to prove one additional essential element of its  
3 *prima facie* case: damages. Given that the Company made a series of  
4 announcements on August 18, 2011, including the announcement that HP was  
5 discontinuing its webOS devices, Defendants undoubtedly would contend that it  
6 was incumbent upon Lead Plaintiffs to precisely apportion that part of the stock  
7 price drop attributable to the alleged fraud as opposed to the loss attributable to  
8 non-fraud related news. In that regard, Defendants maintained, and would  
9 continue to maintain, with the benefit of expert testimony, that precise  
10 apportioning of the ensuing stock price drop attributable to the webOS  
11 announcement would be impossible.

12           90. Lead Plaintiffs retained a reliable and experienced forensic  
13 econometric expert with whom they consulted extensively, including in  
14 connection with the mediation. That expert was capable of providing a detailed  
15 analysis with respect to loss causation and damages that could apportion the  
16 amount of the price drop attributable to fraud-related versus non-fraud-related  
17 disclosures. Lead Plaintiffs also disagreed with Defendants' interpretation of the  
18 law as somehow requiring absolute precision with respect to such apportionment.  
19 Nevertheless, these issues presented additional and considerable risk that a fact  
20 finder (or possibly even the Court) could have determined that loss causation  
21 and/or damages were not sufficiently proven.

22           91. Each of the foregoing arguments that Defendants likely would have  
23 raised, if credited by the Court at summary judgment or by a jury at trial, could  
24 have resulted in no recovery for the Class or, at a minimum, significantly and  
25 adversely impacted potential damages.

26  
27  
28

1 **VII. NEGOTIATION OF THE SETTLEMENT**

2 92. Based on the Settling Parties’ informal pre-mediation discussions, it  
3 was jointly agreed that it would serve all parties’ interests to engage in a formal  
4 mediation before a highly experienced, reputable mediation specialist possessing a  
5 solid track record of mediating complex class action litigation, and a deep  
6 understanding of the law and issues involved in actions brought under the PSLRA.  
7 The parties identified several well respected mediators, including retired federal  
8 court jurists, ultimately reaching an agreement on Judge Phillips.

9 93. Prior to the mediation there were numerous issues about which the  
10 Settling Parties disagreed, including: (i) whether the statements made or facts  
11 allegedly omitted were material, false, misleading, or actionable; (ii) whether  
12 Lead Plaintiffs could prove that Defendants acted with scienter; and (iii) whether  
13 Lead Plaintiffs could prove loss causation or recoverable damages given the  
14 numerous and disparate pieces of news that entered the market on the corrective  
15 disclosure date of August 18, 2011.

16 94. Judge Phillips set December 3, 2013 as an initial mediation date and  
17 instructed the parties to submit and exchange mediation statements detailing their  
18 respective positions and supporting evidence. Plaintiffs’ Counsel worked  
19 diligently and extensively to prepare Lead Plaintiffs’ Mediation Statement, while  
20 marshaling the facts and documentary evidence obtained through their extensive  
21 informal investigation, pre-mediation discovery efforts, consultation with and  
22 input from forensic and industry experts and their review and analysis of the facts  
23 and legal issues. The Settling Parties’ respective mediation statements thoroughly  
24 set forth Lead Plaintiffs’ and Defendants’ respective positions and included  
25 substantial supporting documentation.

26 95. On December 3, 2013, the Settling Parties, by their representatives,  
27 along with representatives of insurers of HP and the Individual Defendants,  
28 participated in a lengthy arm’s-length mediation in Newport Beach, California,

1 facilitated by Judge Phillips. During the December 3, 2013 mediation session,  
2 Plaintiffs' Counsel also provided the Defendants' representatives and insurance  
3 carriers with a damages study and analysis prepared by Lead Plaintiffs'  
4 econometric expert. While no settlement was reached at the mediation session,  
5 substantial progress was achieved. In that regard, Lead Plaintiffs and Defendants  
6 developed a better understanding of each other's positions regarding the merits of  
7 and defenses to the claims asserted in the Action.

8 96. Between December 4, 2013 and January 15, 2014, the Settling Parties  
9 continued to participate in mediated arm's-length settlement communications with  
10 the assistance of Judge Phillips. On January 15, 2014, the Settling Parties' arm's-  
11 length mediation communications, facilitated by Judge Phillips, resulted in an  
12 agreement-in-principle to settle the Action.

13 97. Lead Plaintiffs and Defendants thereafter memorialized the final  
14 terms of settlement in the Settlement Agreement. On March 31, 2014, Lead  
15 Plaintiffs' motion and supporting memorandum of points and authorities seeking  
16 preliminary approval of the Settlement was filed, together with the Settlement  
17 Agreement, the proposed Plan of Allocation, and a request that the Court  
18 preliminarily certify the Settlement Class. ECF Nos. 144 and 145. Lead  
19 Plaintiffs' motion was heard by the Court on April 28, 2014. The Court granted  
20 preliminary approval of the Settlement by Order entered May 2, 2014. ECF  
21 No. 153. The Court also preliminarily approved the proposed Plan of Allocation,  
22 preliminarily certified the Settlement Class, and directed the Settling Parties to  
23 give notice to the Settlement Class. *Id.*

24  
25  
26  
27  
28

1 **VIII. LEAD PLAINTIFFS’ COMPLIANCE WITH THE COURT’S PRELIMINARY**  
2 **APPROVAL ORDER**

3 98. Pursuant to the Preliminary Approval Order, the Court appointed  
4 Garden City Group, Inc. (“GCG”)<sup>6</sup> as Claims Administrator in the Action and  
5 instructed GCG to disseminate copies of the Notice of Pendency and Proposed  
6 Class Action Settlement and Motion for Attorneys’ Fees and Expenses and Proof  
7 of Claim (collectively “Notice Packet”) by mail and to publish the Summary  
8 Notice of Pendency and Class Action Settlement and Motion for Attorneys’ Fees  
9 and Expenses.

10 99. The Notice, attached as Ex. A to the Affidavit Regarding (A) Mailing  
11 of the Notice and Proof of Claim Form; (B) Publication of Summary Notice; (C)  
12 Website and Telephone Helpline; and (D) Report on Requests for Exclusions  
13 Received to Date (the “Mailing Affidavit”), which is attached hereto as Ex. 3,  
14 provides potential Settlement Class Members with information about the terms of  
15 the Settlement and, among other things: (i) their right to exclude themselves from  
16 the Settlement Class; (ii) their right to object to any aspect of the Settlement, the  
17 Plan of Allocation, or the Fee and Expense Application; and (iii) the manner for  
18 submitting a Proof of Claim in order to be eligible for a payment from the net  
19 proceeds of the Settlement. The Notice also informs Settlement Class Members  
20 of Plaintiffs’ Counsel’s intention to apply for an award of attorneys’ fees of no  
21 more than 25% of the Settlement Fund, for payment of their litigation expenses in  
22

23 \_\_\_\_\_  
24 <sup>6</sup> GCG was selected through a competitive bidding process with other  
25 experienced claims administrators and after a careful review of its proposed fees  
26 and expenses, its track-record in administering other settlements involving Co-  
27 Lead Counsel, and its unsurpassed experience in administering securities class  
28 action settlements, such as *WorldCom*, *Tyco*, and *Global Crossing*.

1 an amount not to exceed \$525,000, and for payment of Lead Plaintiffs' expenses  
2 in an amount not to exceed \$75,000.

3 100. As detailed in the Mailing Affidavit, on May 19, 2014, GCG began  
4 mailing Notice Packets to potential Settlement Class Members as well as banks,  
5 brokerage firms, and other third party nominees. Ex. 3 ¶¶ 2-5. In total, to date,  
6 GCG has mailed 800,314 Notice Packets to potential nominees and Settlement  
7 Class Members by first-class mail, postage prepaid. *Id.* ¶ 6. To disseminate the  
8 Notice, GCG obtained the names and addresses of potential Settlement Class  
9 Members from listings provided by HP and its transfer agent and from banks,  
10 brokers, and other nominees. *Id.* ¶¶ 3-5.

11 101. On May 28, 2014, GCG caused the Summary Notice to be published  
12 in *The Wall Street Journal* and to be transmitted over *PR Newswire*. *Id.* ¶ 7 and  
13 Exhibits B and C thereto.

14 102. GCG also maintains and posts information regarding the Settlement  
15 on a dedicated website established for the Action,  
16 <http://www.HewlettPackardSecuritiesLitigation.com>, to provide Settlement Class  
17 Members with information concerning the Settlement, as well as downloadable  
18 copies of the Notice Packet and the Settlement Agreement. Ex. 3 ¶ 8. In addition,  
19 Co-Lead Counsel have made available relevant documents concerning the  
20 Settlement on their firms' websites.

21 103. Through July 31, 2014, the Claims Administrator has incurred fees  
22 and expenses in connection with notifying the Settlement Class and administering  
23 the Settlement in the amount of approximately \$750,000. *Id.* ¶ 13. As a result of  
24 the competitive bidding process, GCG's fees are principally a function of a very  
25 reasonable claim processing charge of \$3.95 per claim. Because the claims  
26 deadline has not passed and the administration is not complete, it is not possible to  
27 know at this time what GCG's total fees and expenses will be. However, based on  
28

1 its experience, the number of notices mailed to date, and an estimate of receiving  
2 no more than 150,000 claims, GCG has estimated that its fees and expenses may  
3 total between approximately \$2 million and \$2.5 million, which we respectfully  
4 submit are reasonable amounts given the potential size of the Settlement Class and  
5 the administration. *Id.* ¶ 14.

6 104. Pursuant to the terms of the Preliminary Approval Order, the deadline  
7 for Settlement Class Members to submit objections to the Settlement, the Plan of  
8 Allocation, or the Fee and Expense Application, or to request exclusion from the  
9 Settlement Class is August 25, 2014. To date, Co-Lead Counsel have received  
10 only one objection (to both the Settlement and Plan of Allocation) and have  
11 received 25 requests for exclusion from potential Settlement Class Members  
12 (which represent approximately 2,110 shares of HP stock). Some of these  
13 requests were not filed by class members and several are invalid. No institutional  
14 investor or public pension fund has objected to any aspect of the Settlement or  
15 sought exclusion.

16 105. By letter received June 27, 2014, individual investor Ziping Li, who  
17 reports that he lost less than \$1,000, wrote to the Claims Administrator to object to  
18 the Settlement and, ostensibly, the Plan of Allocation. *See* Ex. 4, hereto. (Since  
19 then, he has also submitted an invalid request for exclusion.) Primarily, he argues  
20 that the Settlement Fund is not “significant enough” and that he “would like to get  
21 a recovery of 20% - 50%” to make the claim process worthwhile. As an initial  
22 matter, Mr. Li did not provide any of the documentation required to establish that  
23 he actually is a member of the Settlement Class. Moreover, as discussed above,  
24 Lead Plaintiffs respectfully submit that the consideration achieved is substantial  
25 under the circumstances of this case and well within the range of reasonableness.  
26 With respect to the proposed Plan of Allocation, Mr. Li also comments that Table  
27 1 to the plan, which reports the 90-day look back prices, does not show significant  
28

1 price fluctuations and falls outside the class period, “so there is not significant  
2 evidence that the defendant might have any wrong doing based on your data.”  
3 Mr. Li misunderstands the purpose of Table 1 and the import of the 90-day look  
4 back provisions of the PSLRA. Lastly, Mr. Li writes that institutional investors  
5 caused the stock price fluctuations, therefore they, and “inside traders,” should not  
6 be able to recover from the Settlement. Here, however, Lead Plaintiffs’  
7 consulting damages expert has carefully analyzed HP’s stock price changes to  
8 isolate the artificial inflation caused by the alleged fraud, rather than other market  
9 factors. Eligible investors will only be able to recover based on the alleged  
10 wrongdoing. Also, “insiders” related to the Defendants are not eligible to recover  
11 in the Settlement. Co-Lead Counsel have written to Mr. Li to clarify these  
12 matters.

13 106. Should any additional objections or requests for exclusion be  
14 received, Lead Plaintiffs will address them in their reply papers, which are due  
15 September 8, 2014.

16 **IX. PLAN OF ALLOCATION**

17 107. Pursuant to the Preliminary Approval Order, and as set forth in the  
18 Notice, all Settlement Class Members who wish to participate in the distribution  
19 of the Settlement proceeds must submit a valid Proof of Claim, including all  
20 required information, postmarked no later than September 16, 2014. As provided  
21 in the Notice, after deduction of Court-awarded attorneys’ fees and expenses,  
22 notice and administration costs, and all applicable taxes, the balance of the  
23 Settlement Fund (the “Net Settlement Fund”) will be distributed according to the  
24 plan of allocation approved by the Court (the “Plan of Allocation”).

25 108. The proposed Plan of Allocation, which was set forth in full in the  
26 Notice (Ex. 3 - A at 9-11), is designed to achieve an equitable and rational  
27 distribution of the Net Settlement Fund, but it is not a formal damages analysis  
28

1 that would be submitted at trial. Plaintiffs' Counsel developed the Plan of  
2 Allocation in close consultation with Lead Plaintiffs' consulting damages expert  
3 and believe that the plan provides a fair and reasonable method to equitably  
4 distribute the Net Settlement Fund among Authorized Claimants.

5 109. The Plan of Allocation provides for distribution of the Net Settlement  
6 Fund among Authorized Claimants on a *pro rata* basis based on "Recognized  
7 Loss" formulas tied to liability and damages. These formulas are tied to the  
8 amount of alleged artificial inflation in the share prices, as quantified by Lead  
9 Plaintiffs' expert. Lead Plaintiffs' expert analyzed the movement of HP common  
10 stock and took into account the portion of the stock drops attributable to the  
11 alleged fraud. The Plan of Allocation ensures that the Net Settlement Fund will  
12 be fairly and equitably distributed based on the amount of inflation in the price of  
13 HP common stock during the Class Period that was attributable to the alleged  
14 wrongdoing.

15 110. The Court-approved Claims Administrator, under Co-Lead Counsel's  
16 direction, will determine each Authorized Claimant's *pro rata* share of the Net  
17 Settlement Fund based upon each Authorized Claimant's total Recognized Loss  
18 compared to the aggregate Recognized Losses of all Authorized Claimants.  
19 Calculation of Recognized Loss will depend upon several factors, including when  
20 the claimants purchased HP stock during the Class Period, and whether the stock  
21 was sold during the Class Period, and if so, when.

22 111. Additionally, a Settlement Class Member's Recognized Loss will be  
23 reduced by an additional factor to reflect the increased litigation risk for purchases  
24 of HP publicly traded common stock made prior to June 1, 2011. For  
25 purchases/acquisitions of HP publicly traded common stock made between  
26 November 22, 2010 and February 8, 2011, inclusive, the Recognized Loss  
27 Amount will be reduced by 50%. For purchases/acquisitions of HP publicly  
28

1 traded common stock made between February 9, 2011 and May 31, 2011,  
2 inclusive, the Recognized Loss Amount will be reduced by 25%. These  
3 percentage reductions reflect Co-Lead Counsel's good faith assessment of the  
4 relative strength and weaknesses of Settlement Class Members' claims against  
5 Defendants and upon consideration of the Court's rulings on Defendants' motions  
6 to dismiss. *See* ECF Nos. 82 & 110. These discounts are consistent with plans of  
7 allocation that have been developed and approved in other cases. *See, e.g., In re*  
8 *Portal Software, Inc. Sec. Litig.*, No. C-03-5138 VRW, 2007 WL 4171201, at \*6  
9 (N.D. Cal. Nov. 26, 2007) ("Courts endorse distributing settlement proceeds  
10 according to the relative strengths and weaknesses of the various claims.")  
11 (collecting cases).

12 112. In sum, the proposed Plan of Allocation, developed in consultation  
13 with Lead Plaintiffs' consulting damages expert, was designed to fairly and  
14 rationally allocate the Net Settlement Fund among Authorized Claimants.  
15 Accordingly, Co-Lead Counsel respectfully submit that the proposed Plan of  
16 Allocation is fair, reasonable, and adequate and should be approved.

17 **X. CO-LEAD COUNSEL'S APPLICATION FOR AN AWARD OF ATTORNEYS'**  
18 **FEES AND PAYMENT OF EXPENSES**

19 113. Plaintiffs' Counsel are requesting an attorneys' fee award of 25% of  
20 the Settlement Fund. This request is fully supported by Lead Plaintiffs.  
21 Plaintiffs' Counsel also request payment of litigation expenses incurred in  
22 connection with the prosecution of the Action from the Settlement Fund in the  
23 amount of \$335,119.93, plus any accrued interest. Plaintiffs' Counsel further  
24 request reimbursement of lost wages and expenses for Lead Plaintiffs pursuant to  
25 15 U.S.C. § 78u-4(a)(4) directly related to their representation of the Settlement  
26 Class in the total amount of \$13,546.85. *See* Decls. of George Hopkins (Arkansas  
27 Teachers), Dr. Joachim Von Cornberg and Dr. Fabian Hannich (Union Asset  
28 Management), and David D'Agostini (Labourers' Pension Fund), attached hereto

1 as Exs. 5, 6, and 7, and Ex. 8 (summary table of requests).<sup>7</sup> The total payment  
2 requested for Plaintiffs’ Counsel’s expenses and the expenses of Lead Plaintiffs is  
3 well below the \$600,000 maximum expense amount that the Settlement Class was  
4 advised could be requested.

5 **A. Lead Plaintiffs Support The Fee And Expense Application**

6 114. Lead Plaintiff Arkansas Teacher Retirement System (“ATRS”) is an  
7 institutional investor that provides retirement, disability, and survivor benefits to  
8 the thousands of current and former employees of the Arkansas education  
9 community, and manages approximately \$14 billion in assets held in trust. *See*  
10 *Ex. 5 ¶ 1.*

11 115. Lead Plaintiff Union Asset Management Holding AG (“UAMH”) is  
12 an institutional investor and experienced fiduciary that manages pension funds for  
13 the benefit of current and retired employees in the Federal Republic of Germany.  
14 UAMH manages assets of approximately \$253.1 billion. *See Ex. 6 ¶ 1.*

15 116. Lead Plaintiff Labourers’ Pension Fund of Central and Eastern  
16 Canada (“LPF”) is a multi-employer pension plan that provides retirement  
17 benefits to thousands of current and former employees in the construction  
18 industry. LPF manages approximately \$4.1 billion (Canadian) in assets and more  
19 than 41,000 members. *See Ex. 7 ¶ 1.*

20 117. Lead Plaintiff LIUNA National (Industrial) Pension Fund (“LIUNA  
21 National”) was established by the Laborers’ International Union of North America  
22 (“LIUNA”) and is a joint labor-management trust fund that provides retirement  
23 income for LIUNA-represented employees working in various industries other  
24

25 <sup>7</sup> Due to scheduling and travel issues, the LIUNA Funds are regrettably  
26 unable to submit their declaration concerning their request for reimbursement with  
27 this filing. We will file the declaration with the Court promptly upon its  
28 finalization.

1 than the building and construction industry. Complaint ¶ 23. Lead Plaintiff  
2 LIUNA Staff & Affiliates Pension Fund (“LIUNA Staff” and collectively with  
3 LIUNA National, the “LIUNA Funds”) is a pooled trust fund established and  
4 maintained for the exclusive purpose of providing a defined benefit retirement  
5 income for officers and staff employees of LIUNA and of local unions, district  
6 councils and other labor organizations affiliated with LIUNA. *Id.* The LIUNA  
7 Funds have more than 17,000 pensioners and manage more than \$1.5 billion in  
8 assets. *Id.*

9 118. Collectively, Lead Plaintiffs manage over \$272.7 billion in retirement  
10 fund assets for their collective fund beneficiaries.

11 119. Lead Plaintiffs have evaluated and fully support the Fee and Expense  
12 Application. In coming to this conclusion, Lead Plaintiffs, having been involved  
13 in the prosecution of the Action and negotiation of the Settlement, considered the  
14 size of the recovery obtained as well as Plaintiffs’ Counsel’s substantial effort in  
15 obtaining the recovery and agreed to allow Plaintiffs’ Counsel to apply for 25% of  
16 the Settlement Fund, particularly in light of the considerable risks of litigation.  
17 *See, e.g.,* Exs. 5-7. All of the Lead Plaintiffs take very seriously their role as  
18 Court-appointed Lead Plaintiffs to ensure that Co-Lead Counsel’s fee request is  
19 fair in light of the work performed and the result achieved for the Settlement  
20 Class.

21 **B. The Risks And Unique Complexities Of The Litigation**

22 120. This Action presented substantial challenges from the outset of the  
23 case. The specific risks Lead Plaintiffs faced in proving Defendants’ liability and  
24 damages are detailed in paragraphs 69 to 91, above. These case-specific risks are  
25 in addition to the more typical risks accompanying securities class action  
26 litigation, such as the fact that this Action was undertaken on a contingent basis.

1           21. From the outset, Plaintiffs' Counsel understood that it was embarking  
2 on a complex, expensive, and lengthy litigation with no guarantee of being  
3 compensated for the substantial investment of time and money the case would  
4 require. In undertaking that responsibility, Plaintiffs' Counsel were obligated to  
5 ensure that sufficient resources were dedicated to the prosecution of the Action,  
6 and that funds were available to compensate staff and to cover the considerable  
7 costs that a case such as this requires. With an average lag time of several years  
8 for these cases to conclude, the financial burden on contingent-fee counsel is far  
9 greater than on a firm that is paid on an ongoing basis. Indeed, Plaintiffs' Counsel  
10 have received no compensation during the course of the Action but have incurred  
11 over 13,000 hours of time for a total lodestar of \$7,525,051.75 and have incurred  
12 \$335,119.93 in expenses in prosecuting the Action for the benefit of the  
13 Settlement Class.

14           22. Plaintiffs' Counsel also bore the risk that no recovery would be  
15 achieved (or that a judgment could not be collected, in whole or in part). Even  
16 with the most vigorous and competent of efforts, success in contingent-fee  
17 litigation, such as this, is never assured.

18           23. Plaintiffs' Counsel know from experience that the commencement of  
19 a class action does not guarantee a settlement. To the contrary, it takes hard work  
20 and diligence by skilled counsel to develop the facts and theories that are needed  
21 to sustain a complaint or win at trial, or to convince sophisticated defendants to  
22 engage in serious settlement negotiations at meaningful levels.

23           24. Plaintiffs' Counsel are aware of many hard-fought lawsuits where,  
24 because of the discovery of facts unknown when the case was commenced, or  
25 changes in the law during the pendency of the case, or a decision of a competent  
26 judge or jury following a trial on the merits, excellent professional efforts of  
27 members of the plaintiffs' bar produced no fee for counsel.

28

1           125. For example, since the enactment of the PSLRA, there has been a  
2 trend towards dismissal of actions with prejudice at the pleading or summary  
3 judgment stage. Indeed, over one-half of securities class actions are dismissed  
4 before ever reaching the merits. NERA reports that between 2000 and 2013,  
5 motions to dismiss were granted in 48% of securities class actions in which they  
6 were filed and the Plaintiffs voluntarily dismissed in an additional 8% of cases,  
7 leaving only 44% of cases to proceed to discovery. See NERA Report at 18,  
8 attached hereto as Ex. 2.

9           126. Federal appellate reports are filled with opinions affirming dismissals  
10 with prejudice in securities cases. The many appellate decisions affirming  
11 summary judgments and directed verdicts for defendants show that surviving a  
12 motion to dismiss is not a guarantee of recovery. See, e.g., *Oracle Corp.,*  
13 *Securities Litigation*, 627 F.3d 376 (9th Cir. 2010); *In re Silicon Graphics Sec.*  
14 *Litig.*, 183 F.3d 970 (9th Cir. 1999); *Phillips v. Scientific-Atlanta, Inc.*, 489 Fed.  
15 App'x. 339 (11th Cir. 2012); *In re Smith & Wesson Holding Corp. Sec. Litig.*, 669  
16 F.3d 68 (1st Cir. 2012); *McCabe v. Ernst & Young, LLP*, 494 F.3d 418 (3d Cir.  
17 2007); *In re Digi Int'l Inc. Sec. Litig.*, 14 Fed. App'x. 714 (8th Cir. 2001); *Geffon*  
18 *v. Micrion Corp.*, 249 F.3d 29 (1st Cir. 2001); *Greebel v. FTP Software, Inc.*, 194  
19 F.3d 185 (1st Cir. 1999); *Longman v. Food Lion, Inc.*, 197 F.3d 675 (4th Cir.  
20 1999); *Phillips v. LCI Int'l, Inc.*, 190 F.3d 609 (4th Cir. 1999); *In re Comshare*  
21 *Inc. Sec. Litig.*, 183 F.3d 542 (6th Cir. 1999); *Levitin v. PaineWebber, Inc.*, 159  
22 F.3d 698 (2d Cir. 1998); *Silver v. H&R Block Inc.*, 105 F.3d 394 (8th Cir. 1997).

23           127. Getting past a motion to dismiss and successfully opposing a motion  
24 for summary judgment is not a guarantee that plaintiffs will prevail at trial.  
25 Indeed, while only a few securities class actions have been tried before a jury,  
26 several have been lost in their entirety, such as *In re JDS Uniphase Securities*  
27 *Litigation*, Case No. C-02-1486 CW (EDL), slip op. (N.D. Cal. Nov. 27, 2007), or  
28

1 substantially lost as to the main case, such as *In re Clarent Corp. Securities*  
2 *Litigation*, Case No. C-01-3361 CRB, slip op. (N.D. Cal. Feb. 16, 2005).  
3 Moreover, even plaintiffs who succeed at trial may find their verdict overturned  
4 on appeal. *See, e.g., Anixter v. Home-Stake Prod. Co.*, 77 F.3d 1215 (10th Cir.  
5 1996) (overturning plaintiffs' verdict obtained after two decades of litigation);  
6 *Backman v. Polaroid Corp.*, 910 F.2d 10 (1st Cir. 1990) (en banc) (reversing  
7 plaintiffs' verdict for securities fraud and ordering entry of judgment for  
8 defendants); *Ward v. Succession of Freeman*, 854 F.2d 780 (5th Cir. 1998)  
9 (reversing plaintiffs' jury verdict for securities fraud); *Robbins v. Koger Props.,*  
10 *Inc.*, 116 F.3d 1441 (11th Cir. 1997) (same). Even when plaintiffs win a jury  
11 verdict, they still face substantial challenges in securing a recovery. *See, e.g., In*  
12 *re Apollo Grp., Inc. Sec. Litig.*, Case No. CV-04-2147-PHX-JAT, 2008 WL  
13 3073731 (D. Ariz. Aug. 4, 2008), *rev'd*, 2010 5927988 (9th Cir. 2010) (trial court  
14 tossing unanimous verdict for plaintiffs, which was later reinstated by the Ninth  
15 Circuit Court of Appeals and judgment re-entered after denial by the Supreme  
16 Court of the United States of defendants' Petition for Writ of Certiorari).

17 128. Changes in the law through legislation or judicial decree, such as  
18 *Morrison v. National Australia Bank Ltd.*, 561 U.S. 247, 272 (2010) (limiting the  
19 ability of investors on non-US stock exchanges to recover), can also be  
20 catastrophic, frequently affecting contingent counsel's entire inventory of pending  
21 cases. These are very real threats.

22 129. Losses such as those described above are exceedingly expensive.  
23 The fees that are awarded in successful cases are used to cover enormous  
24 overhead expenses incurred during the course of litigations and are taxed by  
25 federal, state, and local authorities.

26 130. Courts have repeatedly held that it is in the public interest to have  
27 experienced and able counsel enforce the securities laws and regulations  
28

1 pertaining to the duties of officers and directors of public companies. Vigorous  
2 private enforcement of the federal securities laws and state corporation laws can  
3 only occur if the private plaintiffs can obtain some semblance of parity in  
4 representation with that available to large corporate interests. If this important  
5 policy is to be carried out, courts should award fees that will adequately  
6 compensate private plaintiffs' counsel, taking into account the enormous risks  
7 undertaken with a clear view of the economics of a securities class action.

8         131. When our firms undertook to act for Lead Plaintiffs and the Class in  
9 this matter, we were aware that the only way we would be compensated was to  
10 achieve a successful result. The benefits conferred on the members of the  
11 Settlement Class by the Settlement are particularly noteworthy in that a common  
12 fund worth \$57 million (plus interest) was obtained for the Settlement Class  
13 despite the existence of substantial risks, a period when the case was dismissed  
14 and Defendants' zealous and vigorous defense by outstanding lawyers and law  
15 firms.

16         132. Here, Plaintiffs' Counsel's persistent effort in the face of substantial  
17 risks and uncertainties have resulted in a significant and immediate recovery for  
18 the benefit of the Settlement Class. In circumstances such as these, and in  
19 consideration of Plaintiffs' Counsel's hard work and the very favorable result  
20 achieved, the requested fee of 25% of the Settlement Fund and payment of  
21 \$335,119.93 in expenses is reasonable and should be approved.

22         **C. A Lodestar Cross-Check Supports The Requested Award Of**  
23         **Attorneys' Fees**

24         133. The work undertaken by Plaintiffs' Counsel in investigating and  
25 prosecuting this case and arriving at the present Settlement in the face of serious  
26 hurdles has been time-consuming and challenging. As more fully set forth above,  
27 the Action was prosecuted for more than two years and settled only after  
28 Plaintiffs' Counsel overcame multiple challenges. Among other efforts,

1 Plaintiffs' Counsel conducted a comprehensive investigation into the Class's  
2 claims; researched and prepared two detailed complaints; briefed two extensive  
3 oppositions to Defendants' two motions to dismiss and successfully opposed  
4 Defendants' motion for reconsideration; obtained and reviewed over 314,000  
5 pages of documents; consulted with experts and consultants; and engaged in a  
6 hard-fought settlement process with experienced defense counsel.

7 134. At all times throughout the pendency of the Action, Plaintiffs'  
8 Counsel's efforts were driven and focused on advancing the litigation to bring  
9 about the most successful outcome for the Class, whether through settlement or  
10 trial, by the most efficient means necessary.

11 135. Attached hereto are declarations from Plaintiffs' Counsel, which are  
12 submitted in support of the request for an award of attorneys' fees and payment of  
13 litigation expenses. *See* Decl. of Jonathan Gardner on Behalf of Labaton  
14 Sucharow LLP in Support of Pls.' Counsel's Mot. for Award of Attys' Fees &  
15 Payment of Expenses (attached hereto as Ex. 9); Decl. of Gregg S. Levin on  
16 Behalf of Motley Rice LLC in Support of Pls.' Counsel's Mot. for Award of  
17 Attys' Fees & Payment of Expenses (attached hereto as Ex. 10); Decl. of Stephen  
18 R. Basser on Behalf of Barrack, Rodos & Bacine in Support of Pls.' Counsel's  
19 Mot. for Award of Attys' Fees & Payment of Expenses (attached hereto as Ex.  
20 11).

21 136. Included with these declarations are schedules that summarize the  
22 lodestar of each firm, as well as the expenses incurred by category (the "Fee and  
23 Expense Schedules").<sup>8</sup> The attached declarations and the Fee and Expense  
24 Schedules report the amount of time spent by each attorney and professional

---

25 <sup>8</sup> Attached hereto as Ex. 12 is a summary table of the lodestars and expenses  
26 of Plaintiffs' Counsel.  
27  
28

1 support staff employed by Plaintiffs' Counsel and the lodestar calculations based  
2 on their billing rates. As set forth in each declaration, the declarations were  
3 prepared from contemporaneous daily time records regularly prepared and  
4 maintained by the respective firms, which are available at the request of the Court.

5 137. The hourly billing rates of Plaintiffs' Counsel here range from \$975  
6 to \$525 for partners, \$850 to \$550 for of counsel/senior counsel, and \$690 to \$350  
7 for other attorneys. *See* Exs. 9 - B, 10 - B, 11 - B. It is respectfully submitted that  
8 the hourly rates for attorneys and professional support staff included in these  
9 schedules are reasonable and customary. Ex. 13, attached hereto, is a table of  
10 billing rates for major defense firms compiled by Labaton Sucharow from fee  
11 applications submitted by such firms in bankruptcy proceedings nationwide in  
12 2013. Similarly, the *National Law Journal's* annual survey of law firm billing  
13 rates in 2013 shows that average partner billing rates among the nation's largest  
14 firms ranged from \$930 to \$1,055 per hour and average associate billing rates  
15 ranged from \$590 to \$670 per hour. *See* Ex. 14 attached hereto. With respect to  
16 defense counsel in this Action, the *National Law Journal* reported that Morgan  
17 Lewis Bockius' 2013 partner billing rates ranged from \$765 to \$430 per hour,  
18 with an average partner rate of \$620, and its associate rates ranged from \$585 to  
19 \$270, with an average rate of \$390 per hour. Gibson Dunn & Crutcher partner  
20 billing rates ranged from \$1,800 to \$765 per hour, with an average partner rate of  
21 \$980, and its associate rates ranged from \$930 to \$175 with an average rate of  
22 \$590 per hour. Munger, Tolles and Fenwick did not participate in the survey.  
23 *Available at* <http://www.nationallawjournal.com>.

24 138. A lodestar cross-check supports the requested attorneys' fees. A  
25 lodestar cross-check can be performed by multiplying the number of hours  
26 expended in the litigation by the hourly rates of the attorneys. While a lodestar  
27  
28

1 cross-check is often a useful tool in determining the reasonability of a fee request,  
2 whether or not to perform one is within the Court’s discretion.

3 139. Here, Plaintiffs’ Counsel have collectively expended more than  
4 13,000 hours in the prosecution and investigation of the Action. Co-Lead Counsel  
5 allocated work among Plaintiffs’ Counsel and the three firms worked closely to  
6 avoid duplication of effort and to ensure efficient prosecution of the Action. The  
7 resulting collective lodestar is \$7,525,051.75. Pursuant to a lodestar “cross-  
8 check,” the requested fee of 25% of the Settlement Fund (\$14,250,000) results in a  
9 reasonable “multiplier” of 1.89 on the lodestar, which does not include any time  
10 that will necessarily be spent from this date forward administering the Settlement  
11 and moving for a distribution order. As detailed in Plaintiffs’ Counsel’s brief in  
12 support of its fee request, this level of multiplier is well within range of  
13 multipliers approved in this Circuit.

14 **D. Standing And Expertise Of Co-Lead Counsel**

15 140. The law firms prosecuting this case, Co-Lead Counsel Labaton  
16 Sucharow and Motley Rice, and additional counsel, Barrack, Rodos & Bacine, are  
17 among the most experienced and skilled securities litigation law firms in the field.  
18 The expertise and experience of Plaintiffs’ Counsel and their attorneys involved in  
19 this litigation are described in Exs. 9 - B; 10 - B; and 11 - B, annexed hereto.  
20 Since passage of the PSLRA, each of these firms has been approved by courts to  
21 serve as lead counsel in numerous securities class actions throughout the United  
22 States. Each of these firms has acted as lead counsel in several of the most  
23 significant federal securities class actions in history. Here, attorneys with each of  
24 these firms have devoted considerable time and effort to this case, thereby greatly  
25 benefiting the outcome by bringing to bear well over 100 years of collective  
26 experience and litigation skills and achieving an outstanding result for the  
27 Settlement Class.

28

1           141. Labaton Sucharow has served as lead counsel in a number of high  
2 profile matters, for example: *In re American International Group, Inc. Securities*  
3 *Litigation*, No. 04-8141 (S.D.N.Y.) (representing the Ohio Public Employees  
4 Retirement System, State Teachers Retirement System of Ohio, and Ohio Police  
5 & Fire Pension Fund and reaching settlements of \$1 billion); *In re HealthSouth*  
6 *Corp. Securities Litigation*, No. 03-1501 (N.D. Ala.) (representing the State of  
7 Michigan Retirement System, New Mexico State Investment Council, and the  
8 New Mexico Educational Retirement Board and securing settlements of more than  
9 \$600 million); and *In re Countrywide Securities Litigation*, No. 07-5295 (C.D.  
10 Cal.) (representing the New York State and New York City Pension Funds and  
11 reaching settlements of more than \$600 million). *See* Ex. 9 - B.

12           142. Motley Rice has served as lead counsel in several high profile matters  
13 which, during the last several years alone, have recovered hundreds of millions of  
14 dollars for investors. Motley Rice's recent class action work includes *Alaska*  
15 *Electrical Pension Fund v. Pharmacia Corp.*, Consol. No. 03-1519 (AET)  
16 (D.N.J.) (representing PACE Industry Union-Management Pension Fund and  
17 reaching \$164 million settlement); *Minneapolis Firefighters' Relief Ass'n v.*  
18 *Medtronic, Inc.*, No. 08-6324 (PAM/AJB) (D. Minn.) (representing Union Asset  
19 Management Holding AG and reaching \$85 million settlement); *City of Sterling*  
20 *Heights General Employees' Retirement System v. Hospira, Inc.*, No. 11 C 8332  
21 (N.D. Ill.) (representing KBC Asset Management NV and Sheet Metal Workers  
22 National Pension Fund and reaching \$60 million settlement, pending final court  
23 approval); *South Ferry LP #2 v. Killinger*, No. C04-1599C (W.D. Wash.)  
24 (regarding Washington Mutual, Inc.) (representing Metzler Investment GmbH and  
25 reaching \$41.5 million settlement); and *In re Dell Inc., Securities Litigation*, No.  
26 A-06-CA-726-SS (W.D. Tex.) (representing Union Asset Management Holding  
27 AG and reaching \$40 million settlement). *See* Ex. 10 - B.

28

1           143. Additional counsel, Barrack Rodos & Bacine, has extensive  
2 experience litigating securities class actions and has successfully prosecuted  
3 numerous securities fraud class actions on behalf of injured investors. *See Ex. 11*  
4 - B. Barrack, Rodos & Bacine has been appointed as lead counsel in dozens of  
5 securities class actions, including more than fifty filed since passage of the  
6 PSLRA. Barrack, Rodos & Bacine served as co-lead counsel in *In re Cendant*  
7 *Corp. Securities Litigation*, 109 F. Supp. 2d 235 (D.N.J. 2000), before the  
8 Honorable William H. Walls. In *Cendant*, Barrack, Rodos & Bacine obtained  
9 settlements with defendants totaling more than \$3.1 billion. Barrack, Rodos &  
10 Bacine also served as co-lead counsel for the New York State Common  
11 Retirement Fund, the sole lead plaintiff in *In re WorldCom, Inc. Securities*  
12 *Litigation*, Master File No. 02-Civ-3288 (DLC) (S.D.N.Y.), in which the court  
13 approved a settlement in excess of \$6.1 billion. Barrack, Rodos & Bacine also  
14 was co-lead counsel in *In re McKesson HBOC, Inc. Securities Litigation*, Master  
15 File No. CV-99-20743 RMW, which was litigated before this Court, ultimately  
16 settling for a total of \$1.0425 billion from all defendants. The firm obtained a  
17 unanimous jury verdict in favor of the plaintiff class in *In re Apollo Group, Inc.*  
18 *Securities Litigation*, CV 04-2147-PHX-JAT (D. Ariz.), ultimately securing a  
19 \$145 million recovery for class members. After trial, the court commented upon  
20 and noted counsel’s “professionalism . . . civility . . . and the integrity that you  
21 have all demonstrated and exuded throughout the handling of this case.” *Id.*

22           **E. Standing And Caliber Of Defense Counsel**

23           144. Defendants were represented throughout this action by Morgan,  
24 Lewis & Bockius and Gibson, Dunn & Crutcher (counsel for HP), Munger Tolles  
25 & Olson (counsel for Apotheker), Fenwick & West (counsel for Bradley), and  
26 Wilson Sonsini Goodrich & Rosati (counsel for Lesjak). These firms are among  
27 the finest and largest law firms in the country possessing substantial resources and  
28

1 expertise in the defense of complex securities litigation. These prominent law  
2 firms and attorneys zealously provided their clients with a very vigorous and  
3 aggressive defense of this Action. In the face of this formidable opposition,  
4 Plaintiffs' Counsel developed the case and persuaded the defendants and their  
5 insurance carriers to resolve this Action on behalf of the Settlement Class and on a  
6 basis that is adequate, fair and reasonable.

7 **F. Request For Litigation Expenses**

8 145. Co-Lead Counsel also seek payment from the Settlement Fund of  
9 \$335,119.93 in litigation expenses reasonably and necessarily incurred by  
10 Plaintiffs' Counsel in connection with commencing and prosecuting the claims  
11 against Defendants.

12 146. From the beginning of the case, Plaintiffs' Counsel were aware that  
13 they might not recover any of their expenses, and, at the very least, would not  
14 recover anything until the Action was successfully resolved. Thus, Plaintiffs'  
15 Counsel were motivated to, and did, take steps to minimize expenses whenever  
16 practicable without jeopardizing the vigorous and efficient prosecution of the  
17 case.

18 147. As set forth in the Fee and Expense Schedules, Plaintiffs' Counsel  
19 have incurred a total of \$335,119.93 in unpaid litigation expenses in connection  
20 with the prosecution of the Action. *See* Exs. 9 ¶¶ 8-10; 10 ¶¶ 8-9; 11 ¶¶ 9-10. As  
21 attested to, these expenses are reflected on the books and records maintained by  
22 each firm. These books and records are prepared from expense vouchers, check  
23 records, and other source materials and are an accurate record of the expenses  
24 incurred. These expenses are set forth in detail in each firm's declaration, each of  
25 which identifies the specific category of expense (e.g., online/computer research,  
26 experts' fees, travel costs, photocopying, telephone, fax and postage expenses).

1 These expense items are billed separately and such charges are not duplicated in  
2 the respective firms' billing rates.

3 148. Co-Lead Counsel maintained strict control over the litigation  
4 expenses. Indeed, many of the litigation expenses were paid out of a litigation  
5 fund created and maintained by Labaton Sucharow. *See* Ex. 9 ¶ 10.

6 149. Of the total amount of expenses, more than \$130,000, or  
7 approximately 40% of total litigation expenses, was expended on experts.

8 150. Additionally, Plaintiffs' Counsel paid more than \$33,175.00 in  
9 mediation fees assessed by the mediator in this matter, Judge Phillips.

10 151. The other expenses for which Co-Lead Counsel seek payment are the  
11 types of expenses that are necessarily incurred in litigation and routinely charged  
12 to clients billed by the hour. These expenses include, among others, travel costs,  
13 legal and factual research, duplicating costs, long distance telephone and facsimile  
14 charges, and postage and delivery expenses.

15 152. All of the litigation expenses incurred, which total \$335,119.93, were  
16 necessary to the successful prosecution and resolution of the claims against  
17 Defendants.

18 **G. The Costs And Expenses Requested By Lead Plaintiffs Are Fair**  
19 **And Reasonable**

20 153. Additionally, Lead Plaintiffs seek the reasonable lost wages and  
21 expenses, pursuant to the PSLRA, 15 U.S.C. § 78u-4(a)(4), that they directly  
22 incurred in connection with their representation of the class in the total amount of  
23 \$13,546.85. *See* Ex. 12. The amount of time and effort devoted to this Action by  
24 Lead Plaintiffs is detailed in their separate declarations. *See* Ex. 5 ¶¶ 4; 8-13; Ex.  
25 6 ¶¶ 4, 8-9; Ex. 7 ¶¶ 4, 8-11.

26 154. ATRS hereby requests \$5,654.61 as reimbursement for its lost wages  
27 and expenses to represent the class. *See* Ex. 5.  
28

1 155. UAMH hereby requests \$4,970.00 as reimbursement for its lost  
2 wages and expenses to represent the class. *See* Ex. 6.

3 156. LPF hereby requests \$2,922.24 as reimbursement for its lost wages  
4 and expenses to represent the class. *See* Ex. 7.

5 157. Plaintiffs' Counsel respectfully submit that these modest awards,  
6 which will be paid directly to the Lead Plaintiffs, are fully consistent with  
7 Congress's intent, as expressed in the PSLRA, of encouraging institutional and  
8 other highly experienced plaintiffs to take an active role in bringing and  
9 supervising actions of this type.

10 158. The Notice apprised the Settlement Class that Co-Lead Counsel  
11 might seek payment of Lead Plaintiffs' expenses and lost wages in an amount not  
12 to exceed \$75,000. *See* Ex. 3 - A at 2. The amount requested herein is well below  
13 this cap. To date, no objection to the requests by Lead Plaintiffs has been raised.

14 159. In view of the complex nature of the Action, the expenses incurred  
15 were reasonable and necessary to pursue the interests of the class. Accordingly,  
16 we respectfully submit that the expenses incurred by Plaintiffs' Counsel and Lead  
17 Plaintiffs should be paid in full from the Settlement Fund.

18 **H. The Reaction Of The Settlement Class To The**  
19 **Fee And Expense Application**

20 160. As mentioned above, consistent with the Preliminary Approval  
21 Order, more than 800,000 Notices have been mailed to potential Settlement Class  
22 Members advising them that Plaintiffs' Counsel would seek an award of  
23 attorneys' fees not to exceed 25% of the Settlement Fund, and payment of  
24 expenses in an amount not greater than \$600,000 (including the reasonable  
25 expenses and lost wages of Lead Plaintiffs). *See* Ex. 3 - A at 2, 7. Additionally,  
26 the Summary Notice was published in *The Wall Street Journal* and disseminated  
27 over the *PR Newswire*. Ex. 3 ¶ 7. The Notice and the Settlement Agreement have  
28 also been available on the settlement website maintained by GCG. *Id.* ¶ 8.

1           161. While the deadline set by the Court for Settlement Class Members to  
2 object to the requested fees and expenses has not yet passed, to date Co-Lead  
3 Counsel have received no objections. Co-Lead Counsel will respond to any  
4 objections received by the August 25, 2014 deadline in its reply papers, which are  
5 due September 8, 2014.

6 **XI. MISCELLANEOUS EXHIBITS**

7           162. Attached hereto as Ex. 15 is a compendium of unreported cases, in  
8 alphabetical order, cited in the accompanying Memorandum of Law in Support of  
9 Plaintiffs' Counsel's Motion for an Award of Attorneys' Fees and Payment of  
10 Expenses.

11           163. Attached hereto as Ex. 16 is a true and correct copy of Charles Silver,  
12 *Class Actions in the Gulf South Symposium: Due Process and the Lodestar*  
13 *Method: You Can't Get There from Here*, 74 Tul. L. Rev. 1809 (2000).

14 **XII. CONCLUSION**

15           164. In view of the significant recovery to the Settlement Class and the  
16 substantial risks of this litigation, as described above and in the accompanying  
17 memorandum of law, Lead Plaintiffs and Co-Lead Counsel respectfully submit  
18 that the Settlement should be approved as fair, reasonable, and adequate and that  
19 the proposed Plan of Allocation should likewise be approved as fair, reasonable,  
20 and adequate. In view of the significant recovery in the face of substantial risks,  
21 the quality of work performed, the contingent nature of the fee, and the standing  
22 and experience of Plaintiffs' Counsel, as described above and in the  
23 accompanying memorandum of law, Plaintiffs' Counsel respectfully submit that a  
24 fee in the amount of 25% of the Settlement Fund be awarded, that litigation  
25 expenses in the amount of \$335,119.93 be paid in full, and that Lead Plaintiffs'  
26 lost wages and expenses be similarly reimbursed in full.
